# HOBBY HORSE SEWING INSTRUCTION

## Materials and tools:

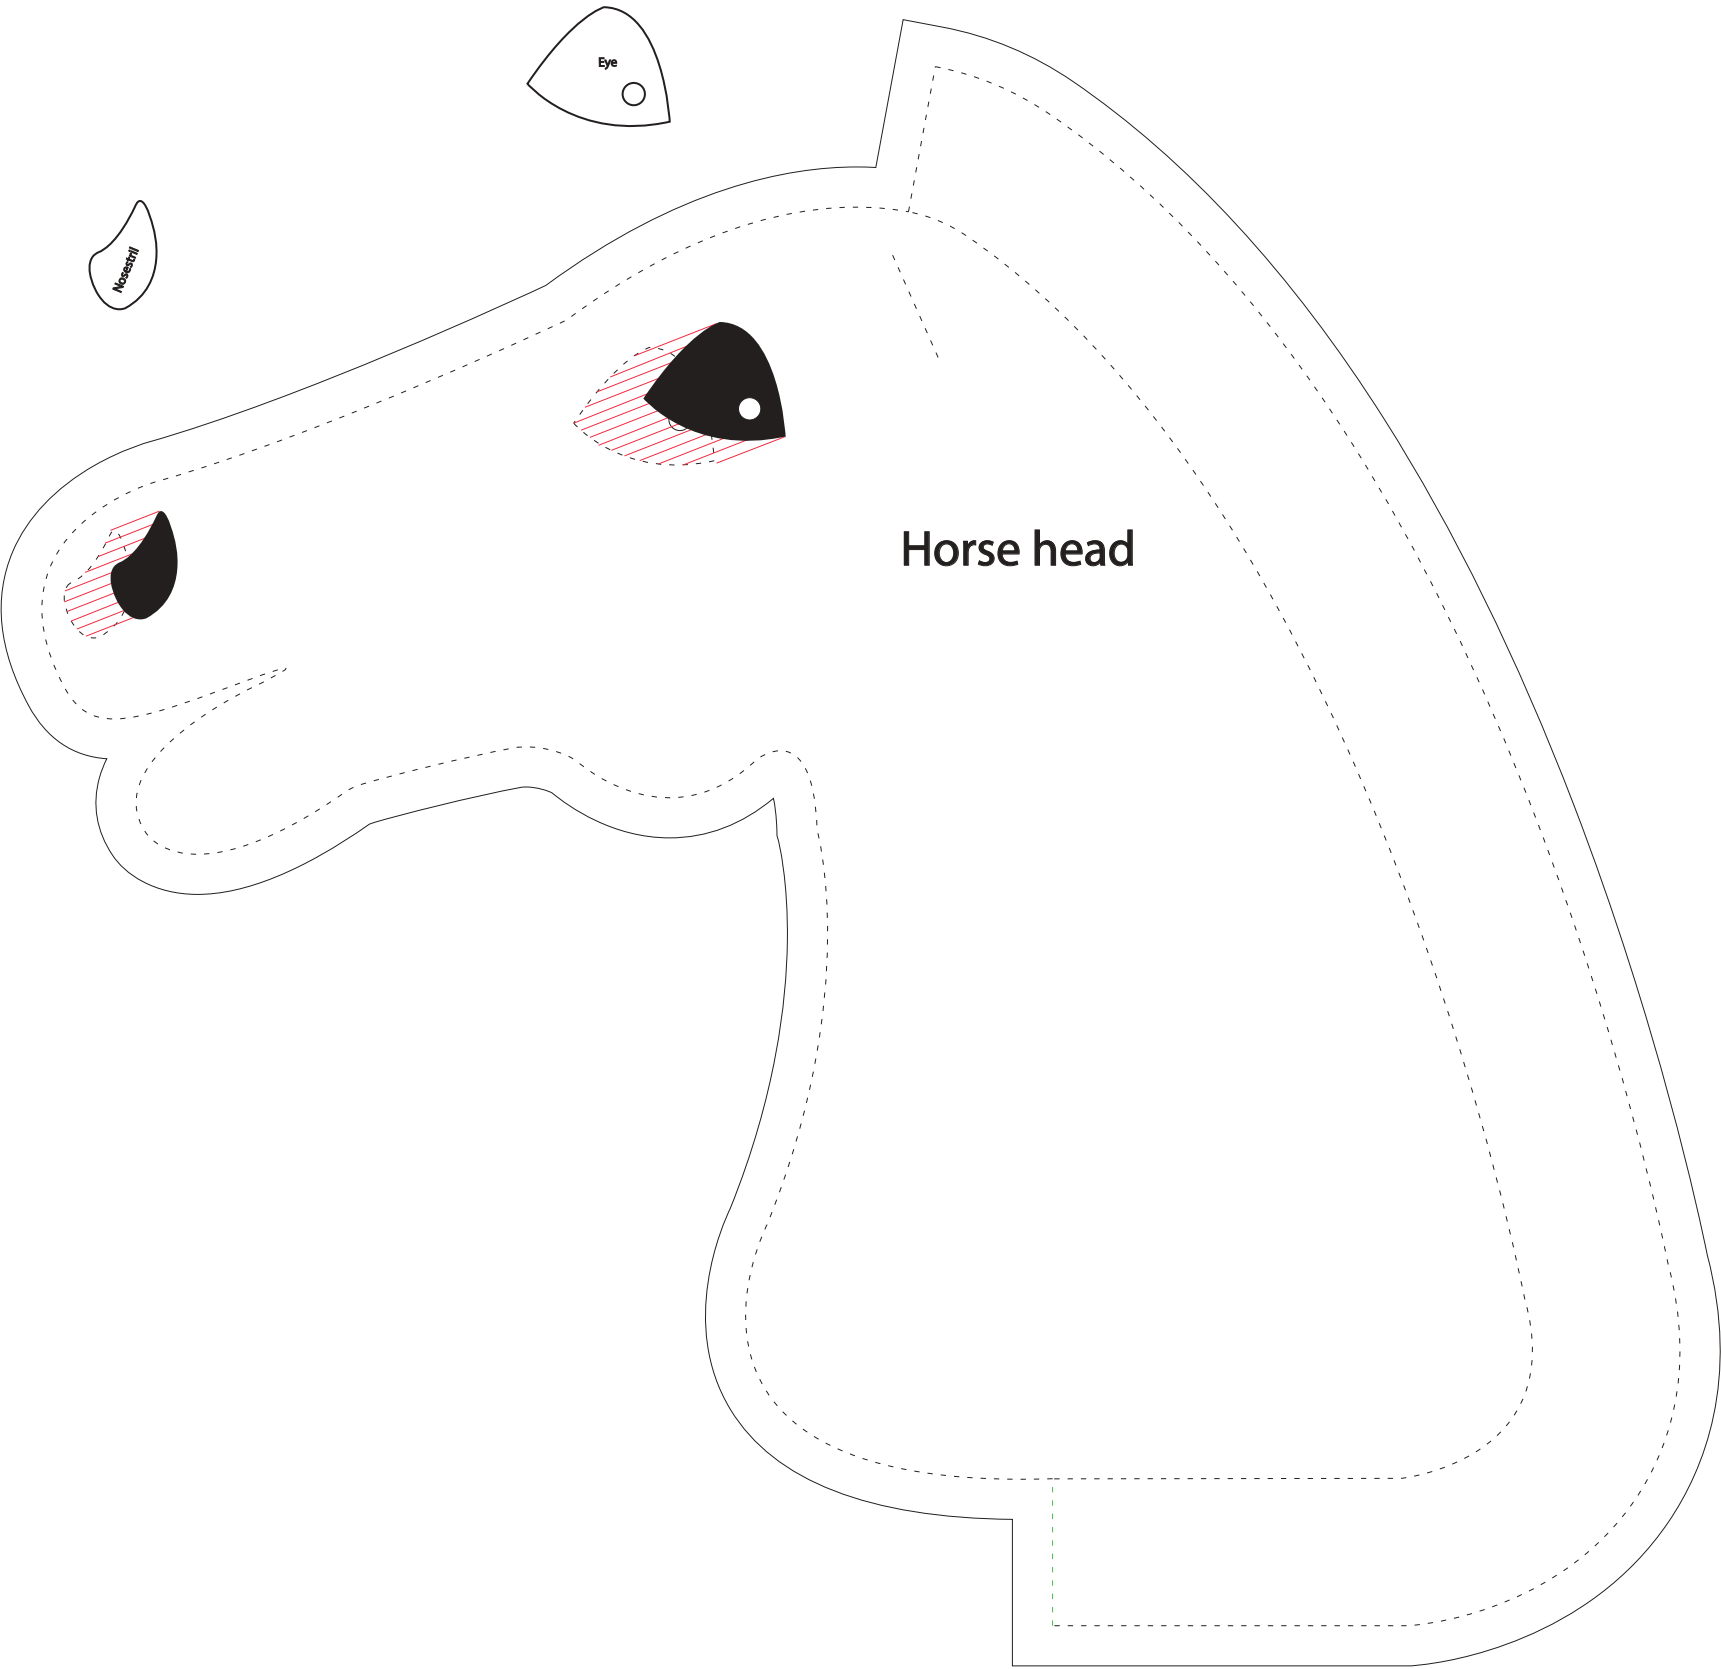

- dense fabric (upholstery, corduroy, short-piled artificial fur, drape)
- pieces of material for the inner part of the ears, white and black leather or felt
- knitting and sewing threads, or any fringe material (for mane)
- bulky cord or braid, thin belt, long handle for bridle, 220cm
- scissors, glue, needles, sewing machine
- sintepon or holofiber for stuffing
- smoothly polished wooden stick (can be found at a hardware store)
- two metal rings for bridle, 3cm in diameter
- 10cm chain for bridle

Step 1.

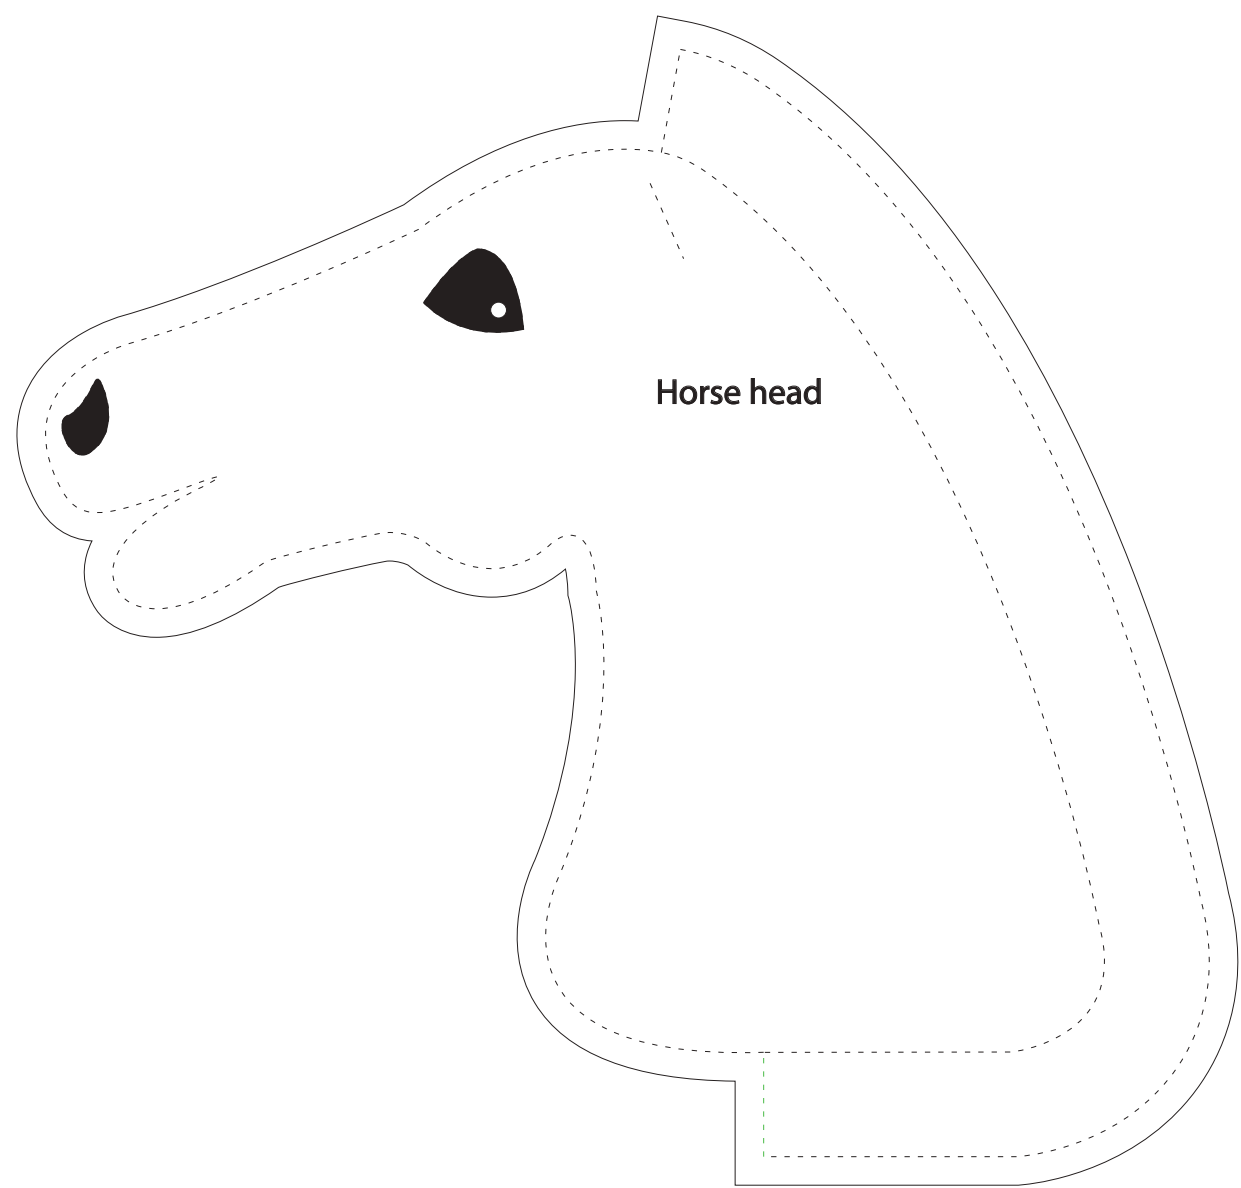

Cut out from the fabrics all needed elements for the Hobby horse, cut the wooden stick to the needed length and choose the mane

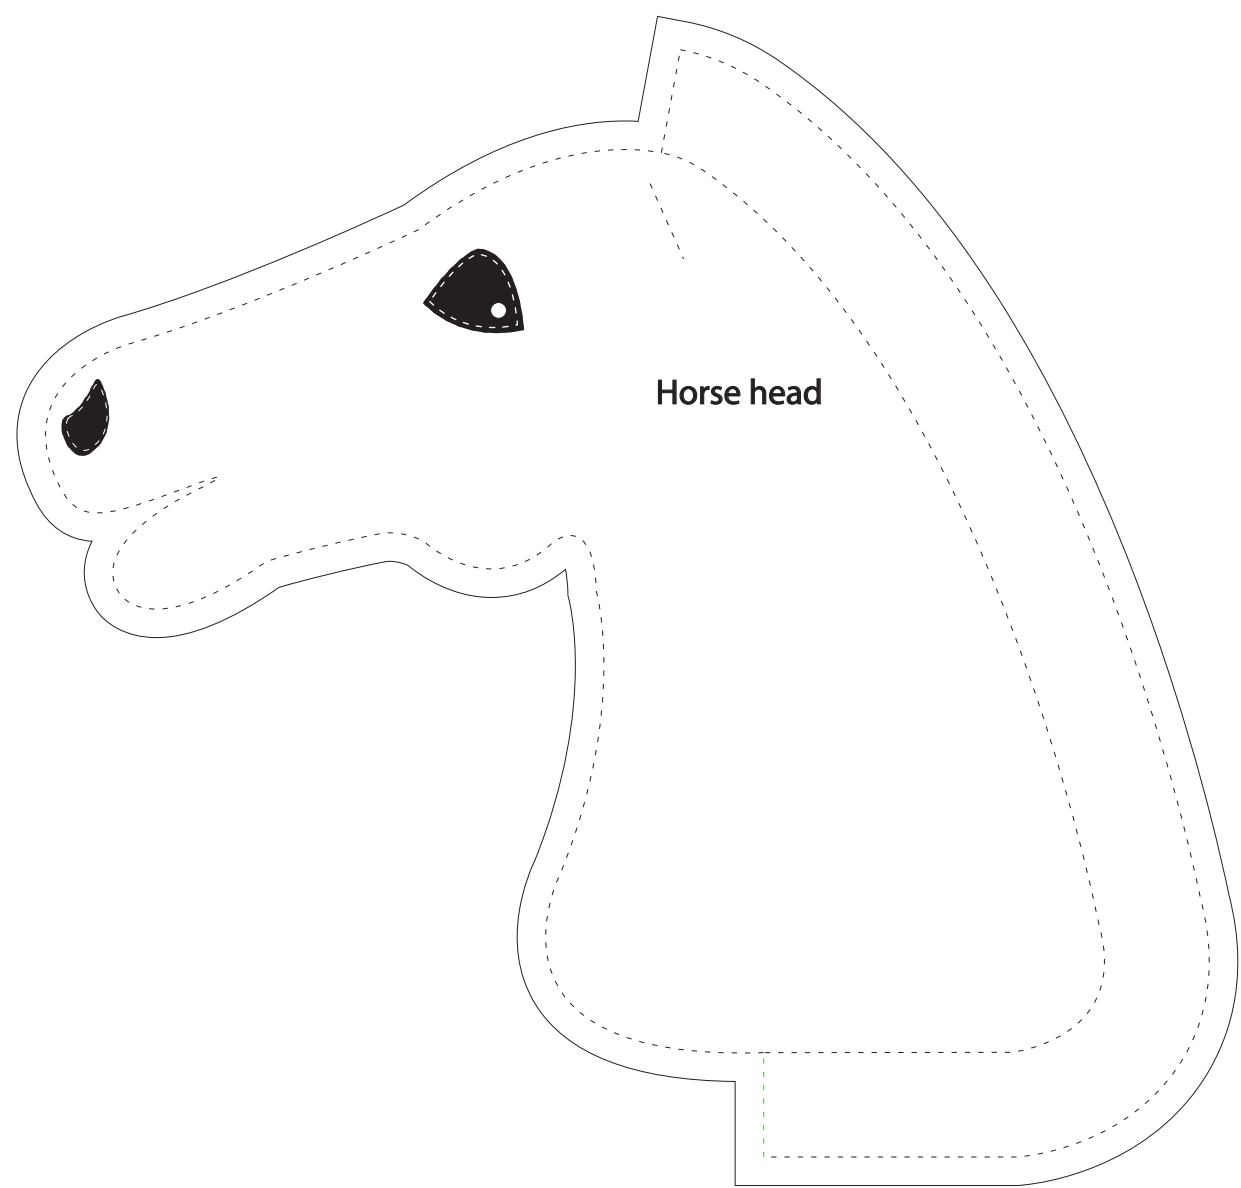

Step 2.  
Glue or overstitch eye and nostril pieces to the relevant  
markings on the Hobby horse head

Glued nostril and eye will have no visible attachment lines

Stitched nostril and eye will have visible stiches as attachment lines

### Step 3.

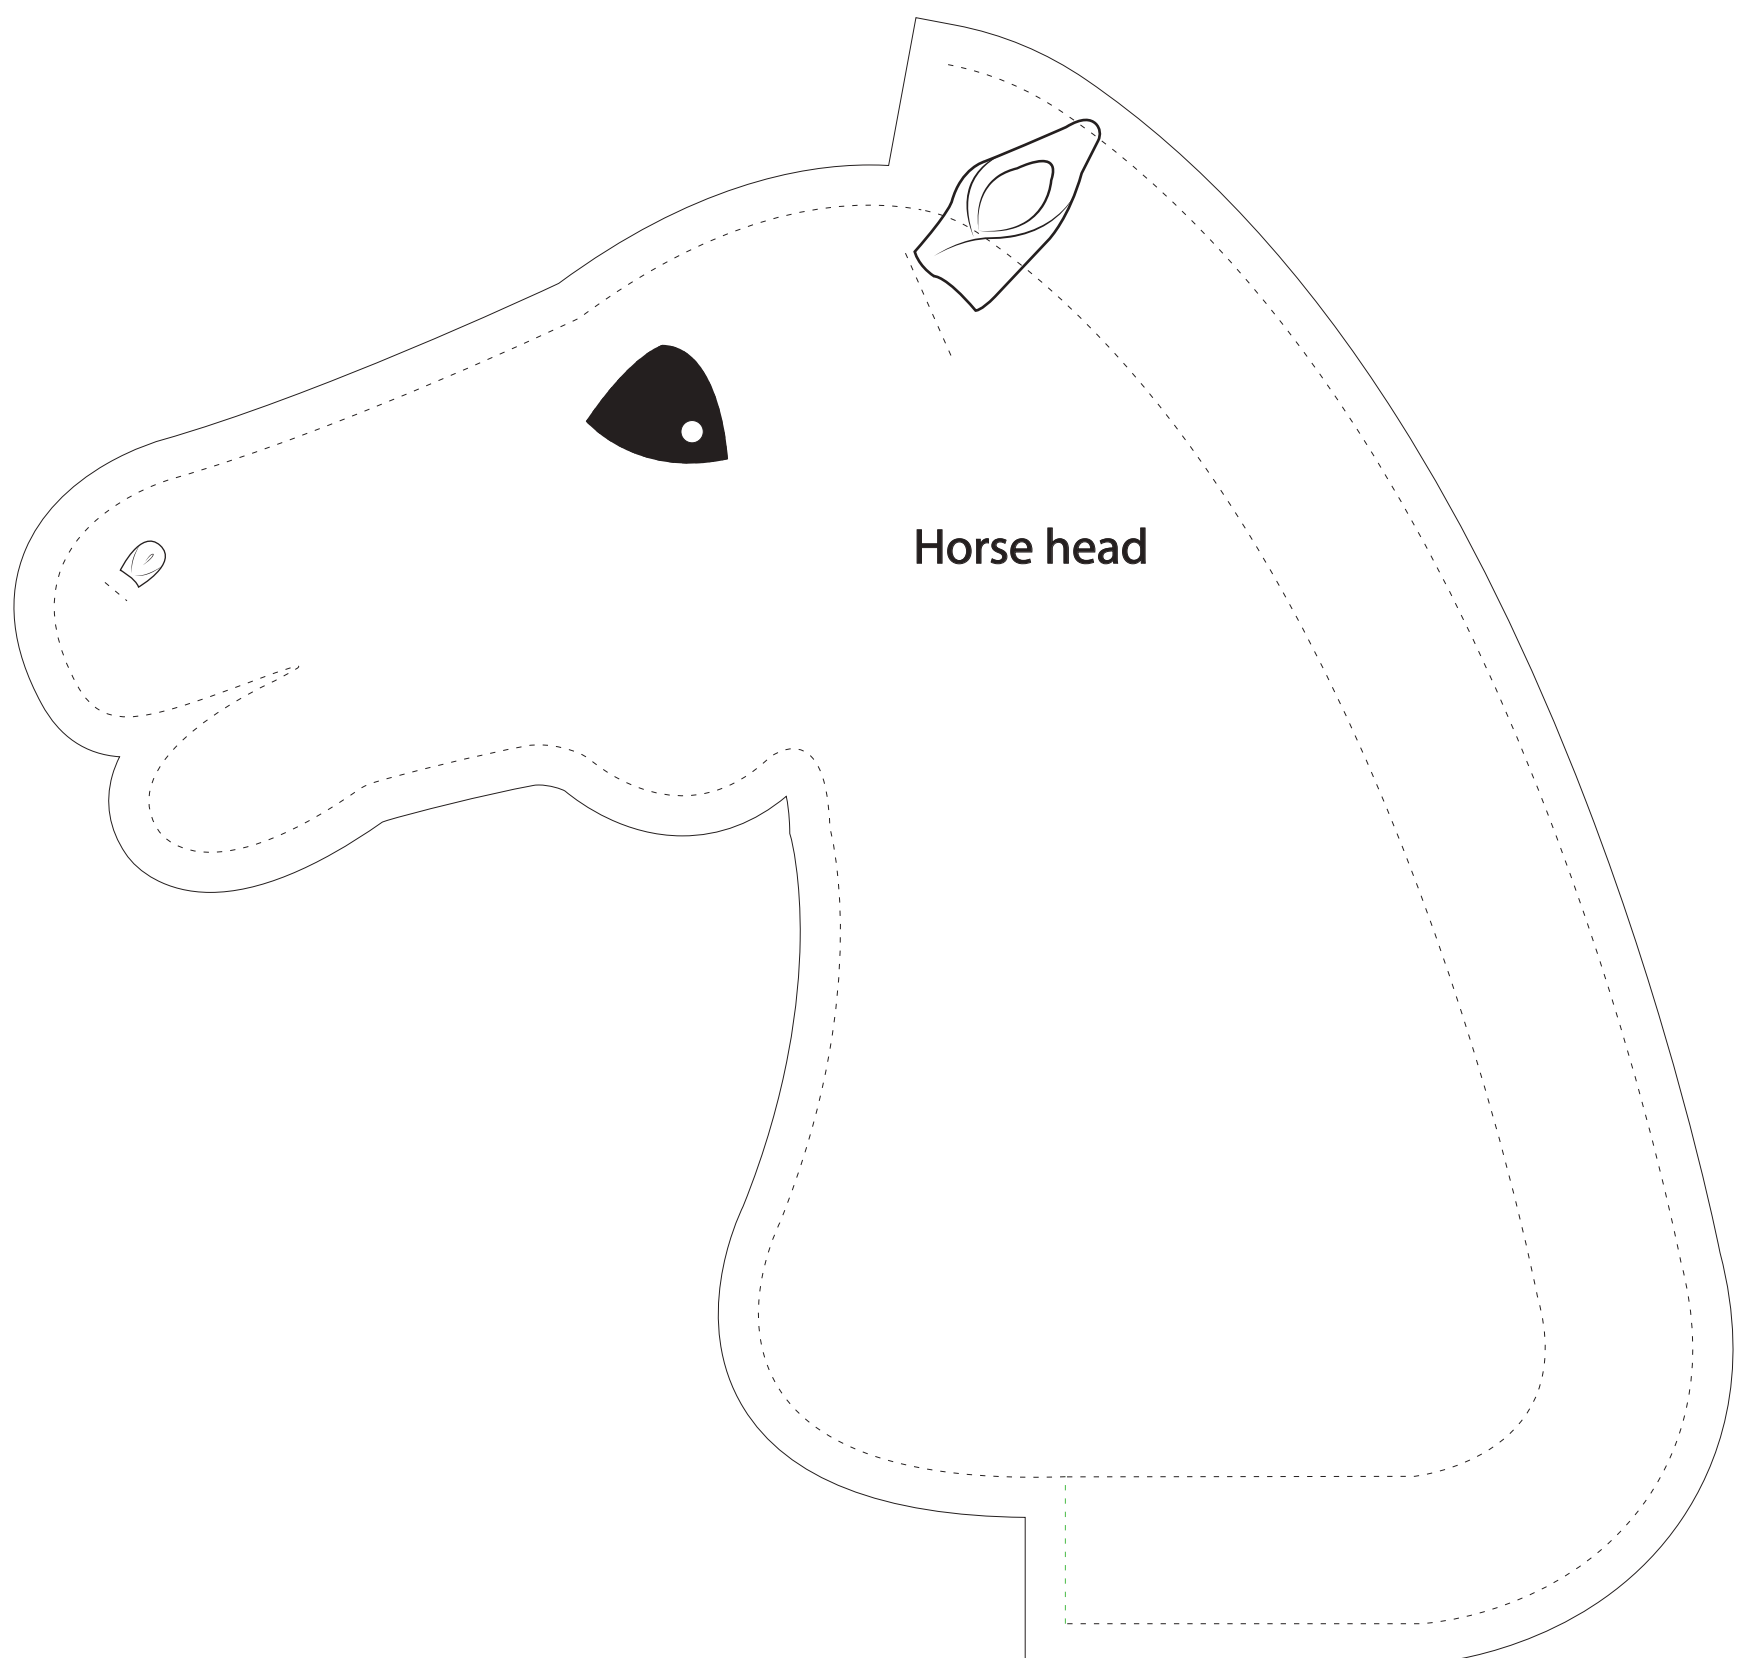

Stitch ear parts together, turn the right sides inside out and fold the edges of the ear as shown on the image.

Do the same to the nostrils if you chose to give a different nostril design to the Hobby horse

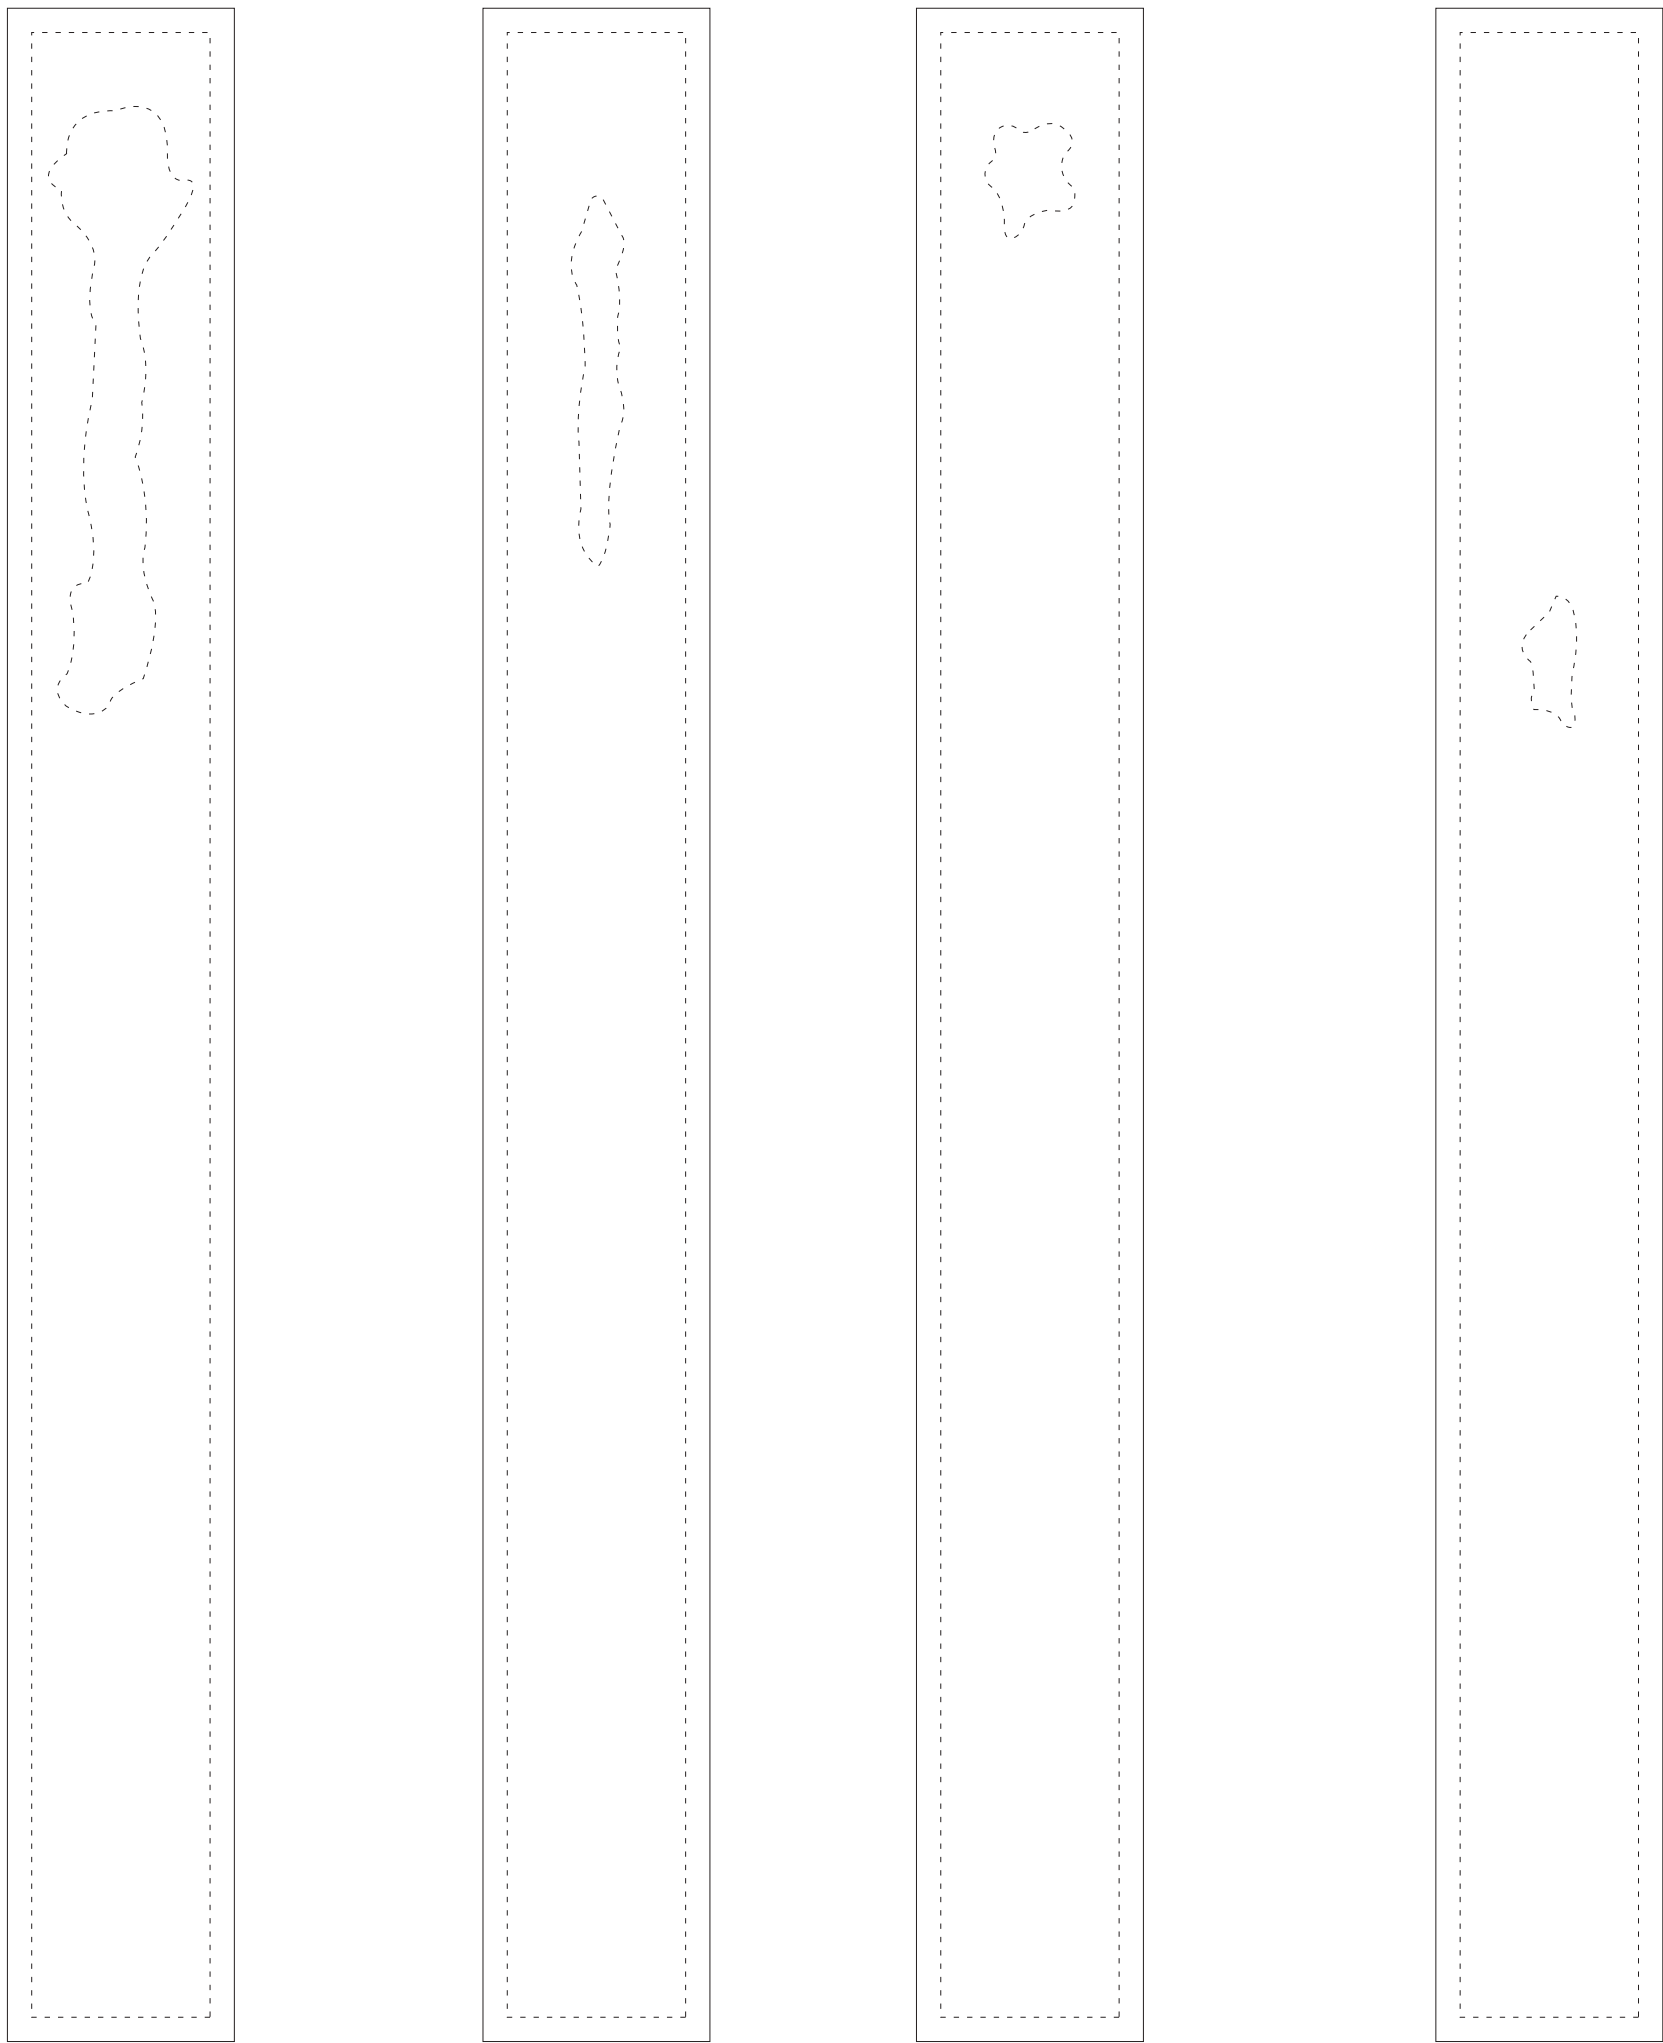

### Step 4.

Make cuttings on the Hobby horse head according markings on the pattern and stitch in the eye and nostril parts

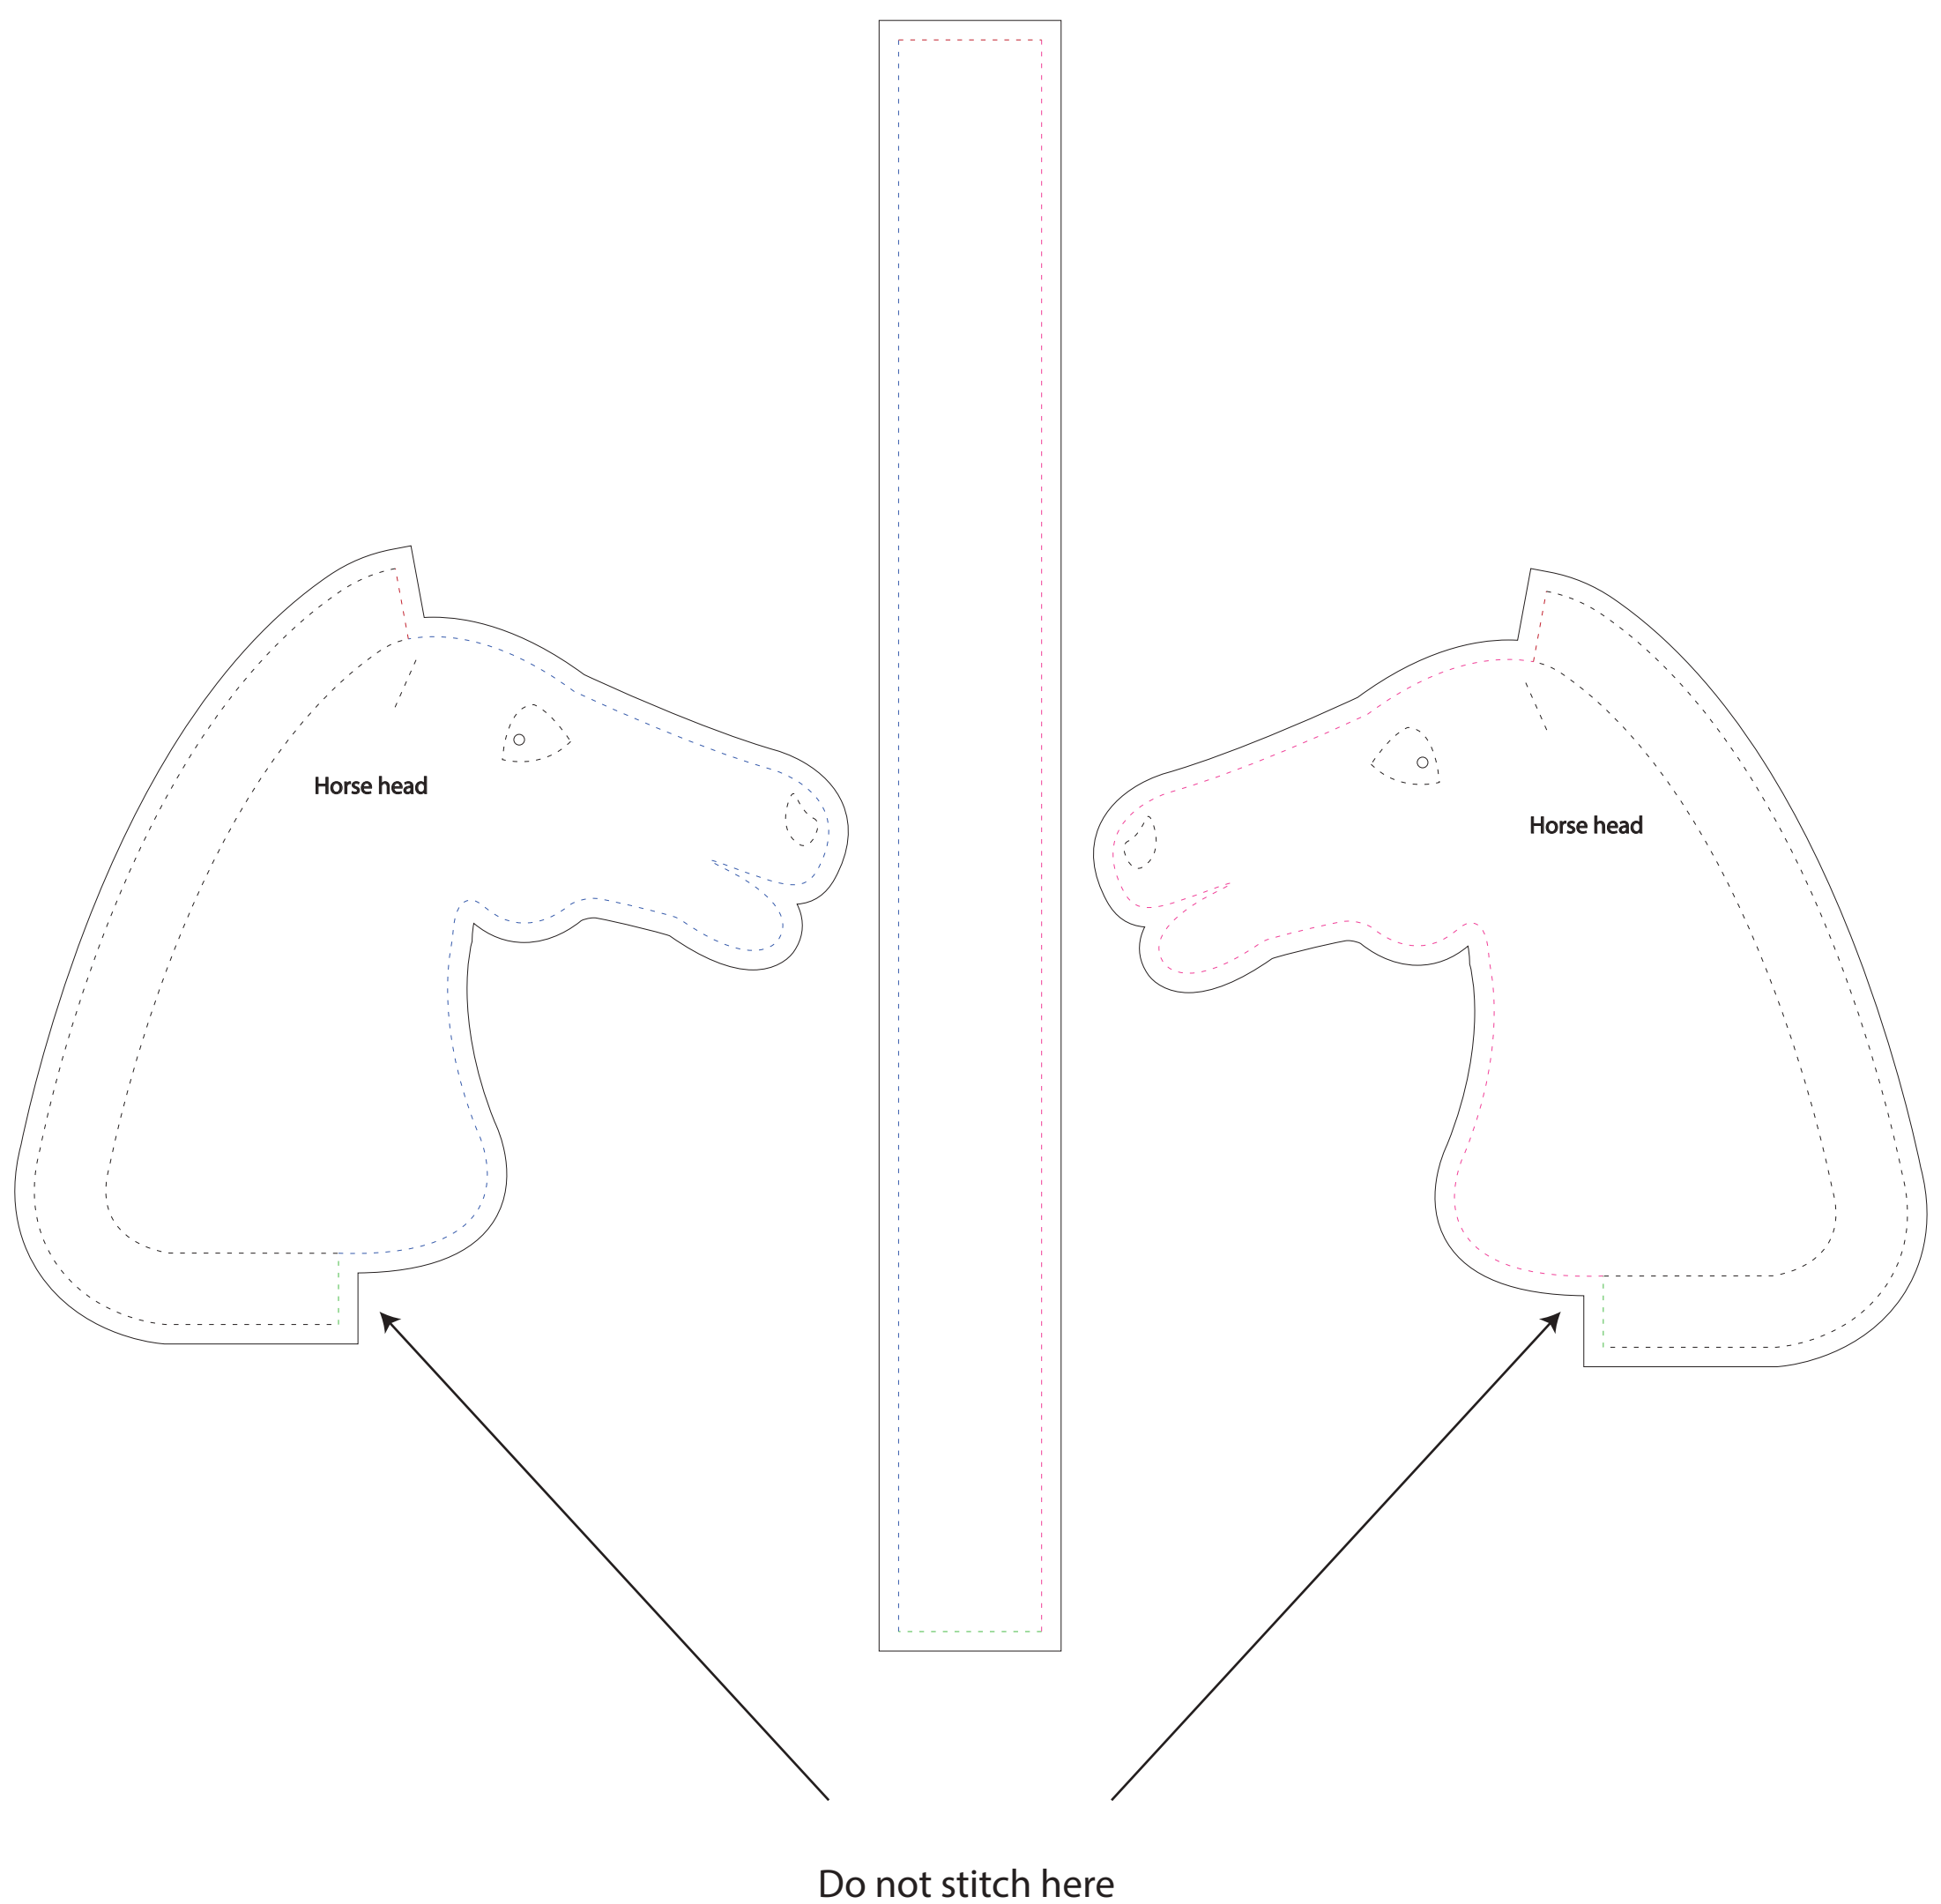

Step 5.  
Glue or institch Hobby horse markings on the middle  
Hobby horse pattern piece. You can choose the scheme from  
the images below or apply it by your own design

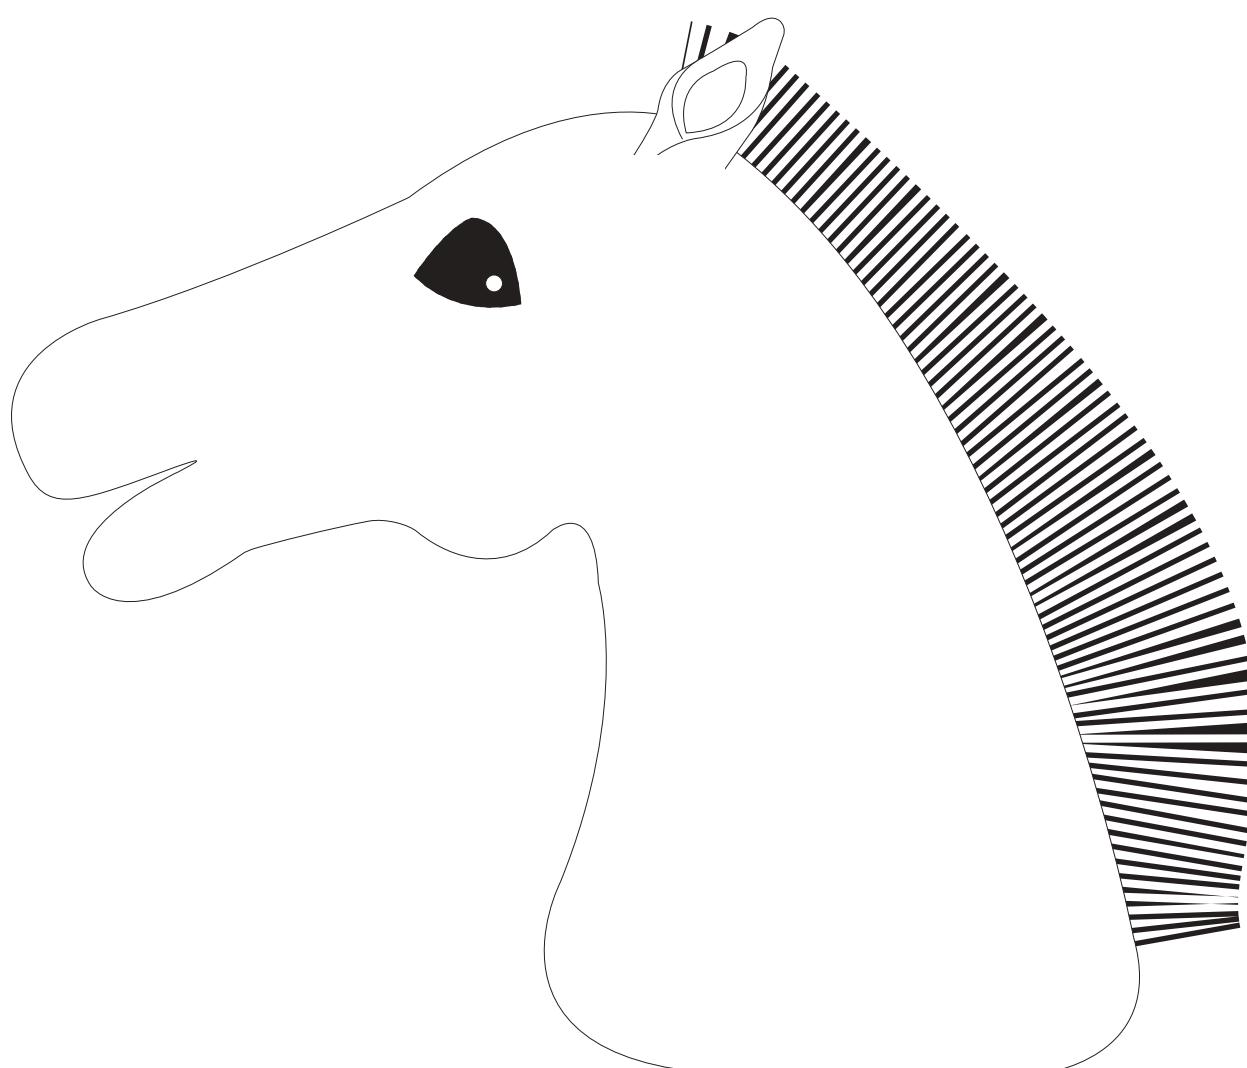

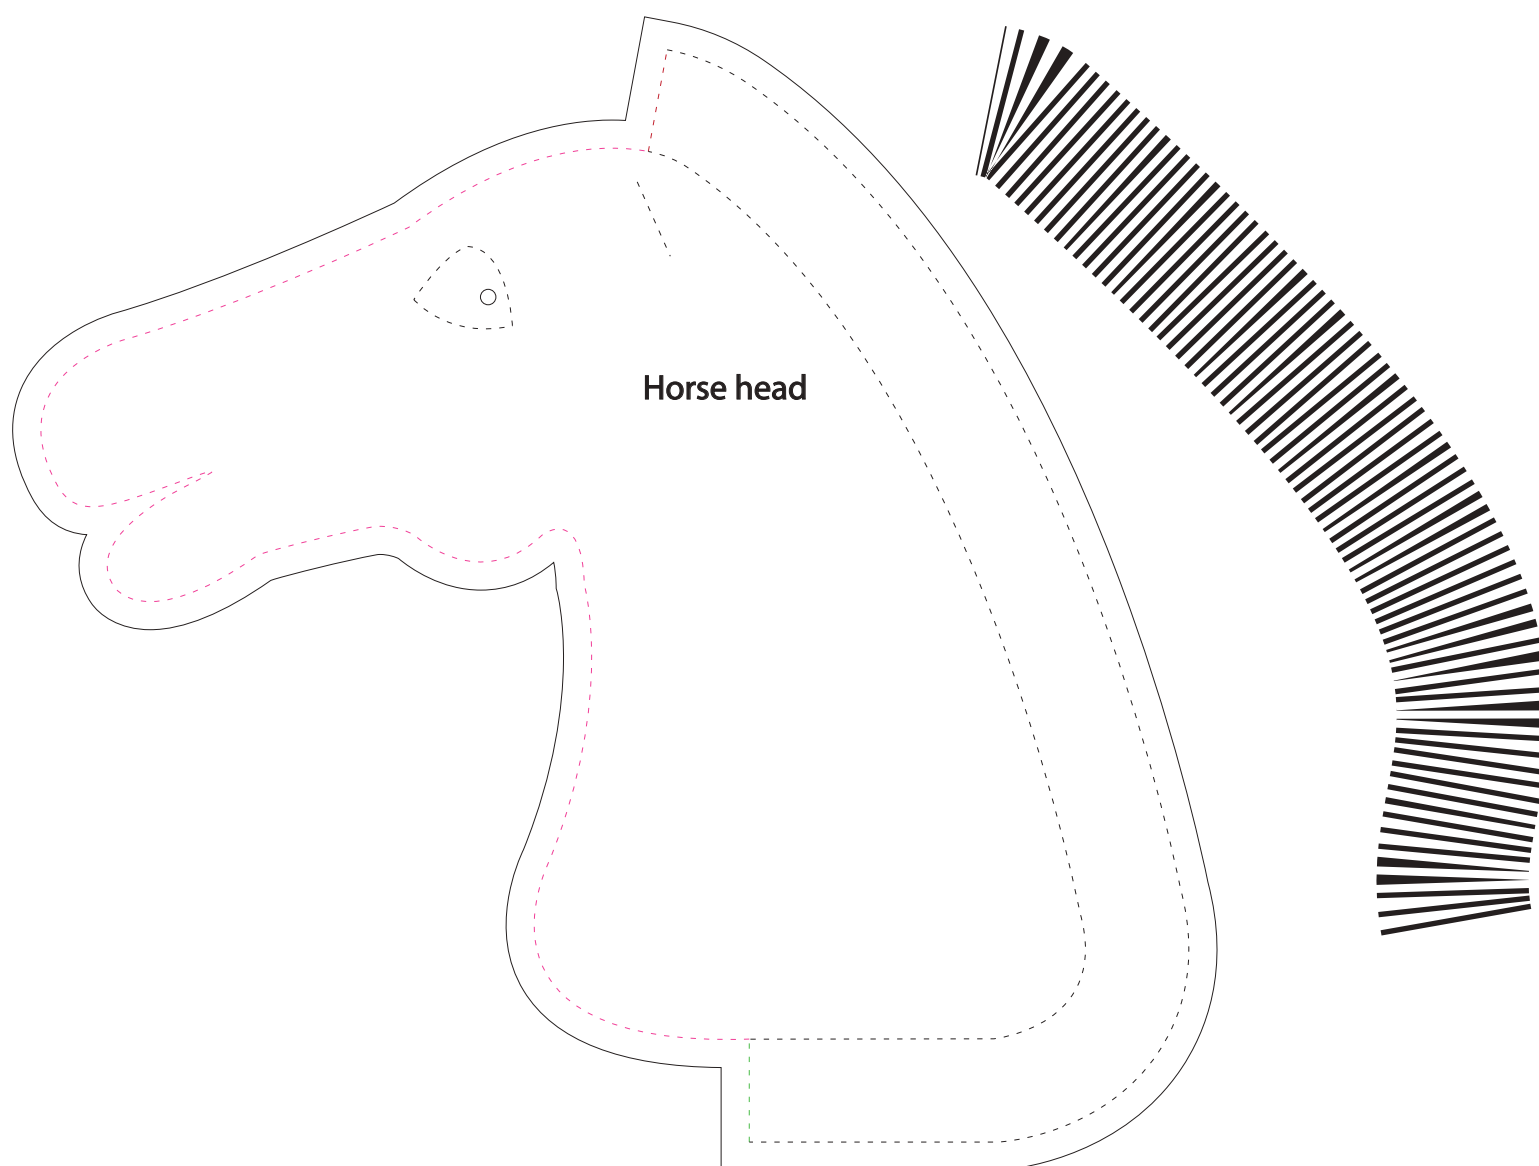

Step 6.  
Stitch the middle Horse head part to the relevant edges of the left and right Horse head pieces leaving the bottom seam allowances open as an apperture to install the wooden stick

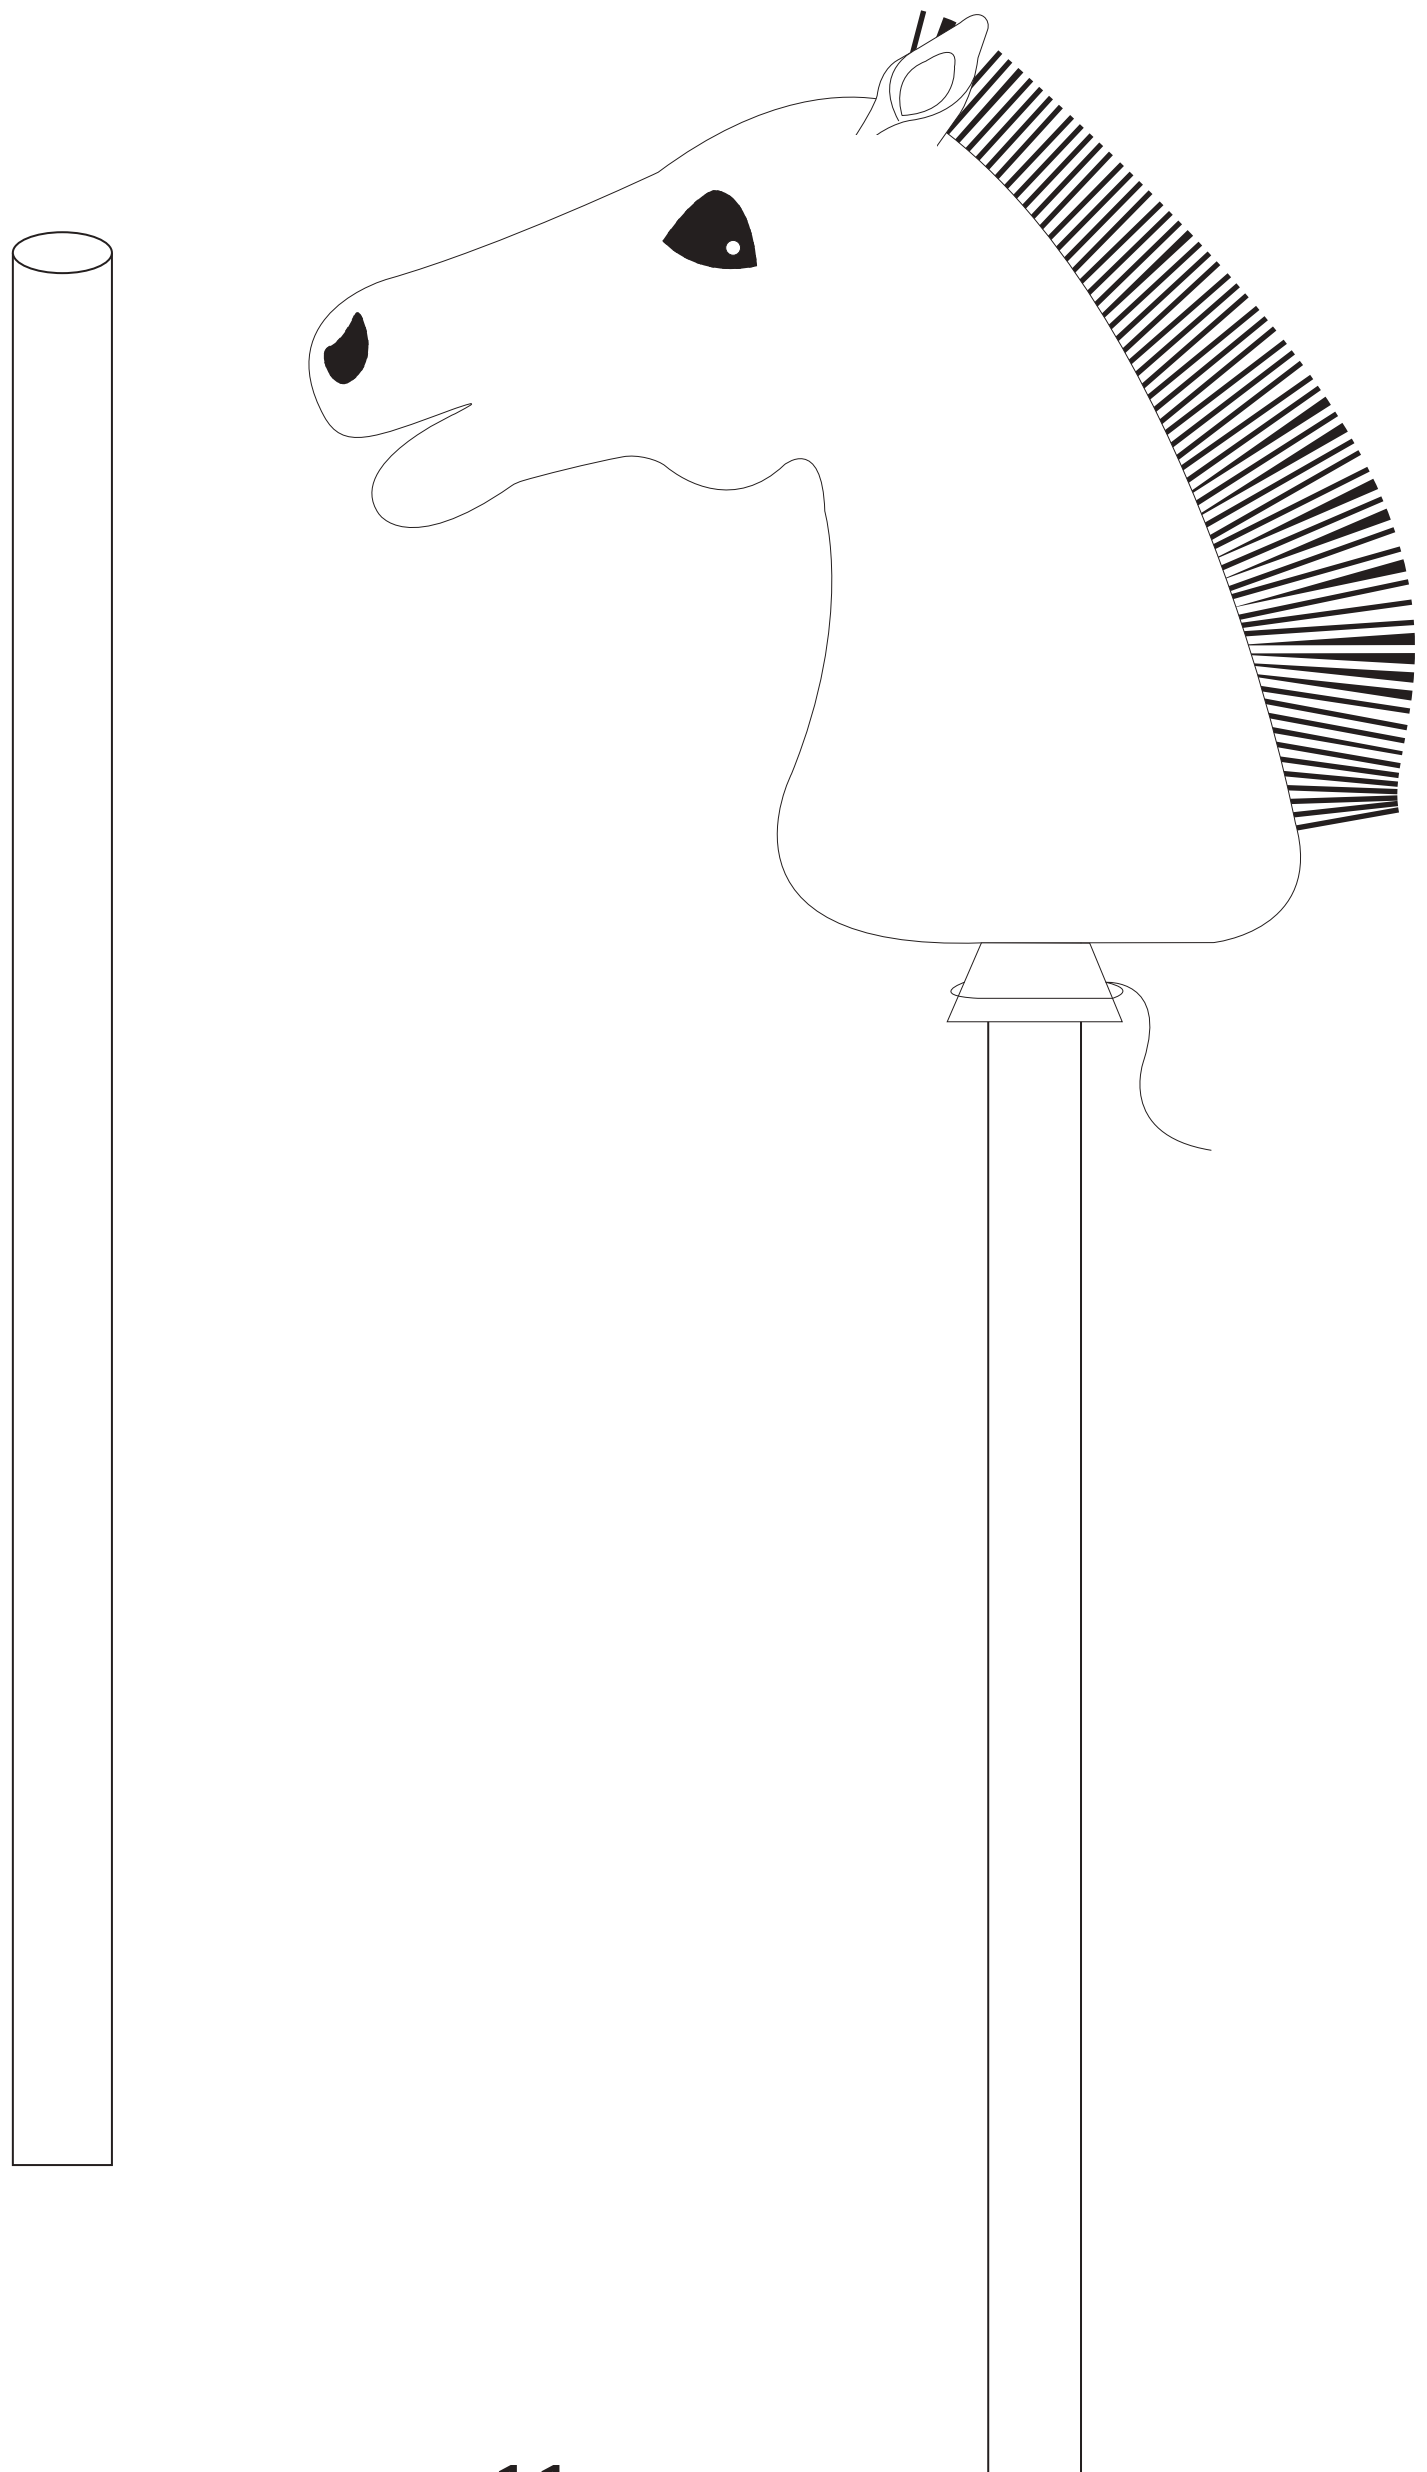

Step 7.

Put the horse mane between the left and right horse heads parts and stitch the three elements together

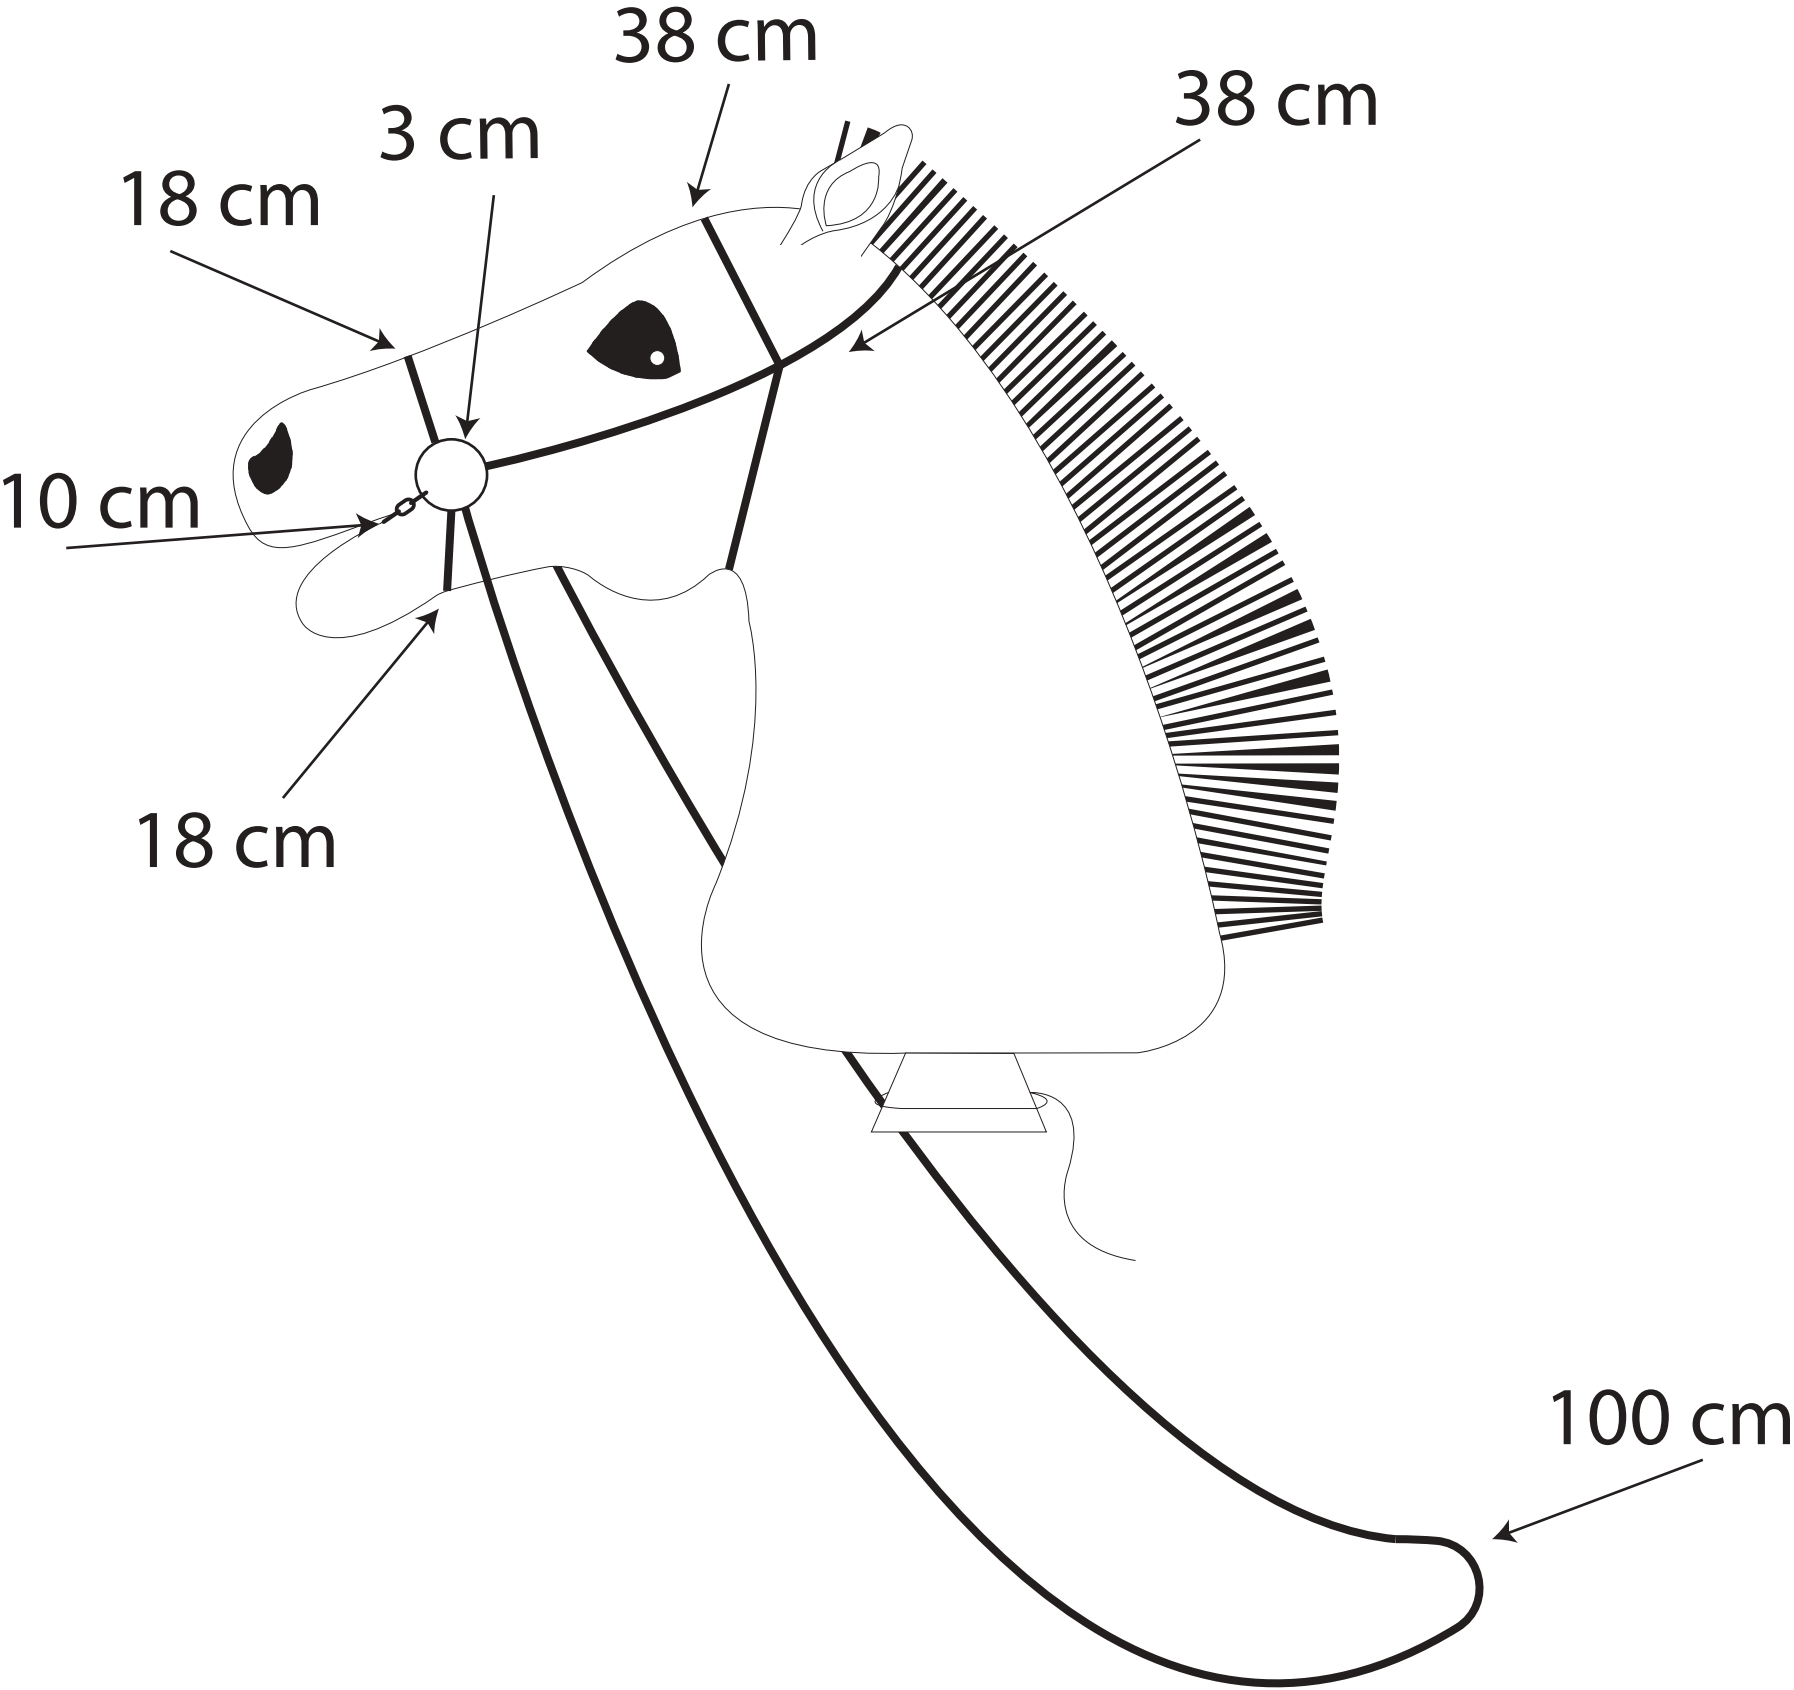

## Step 8.

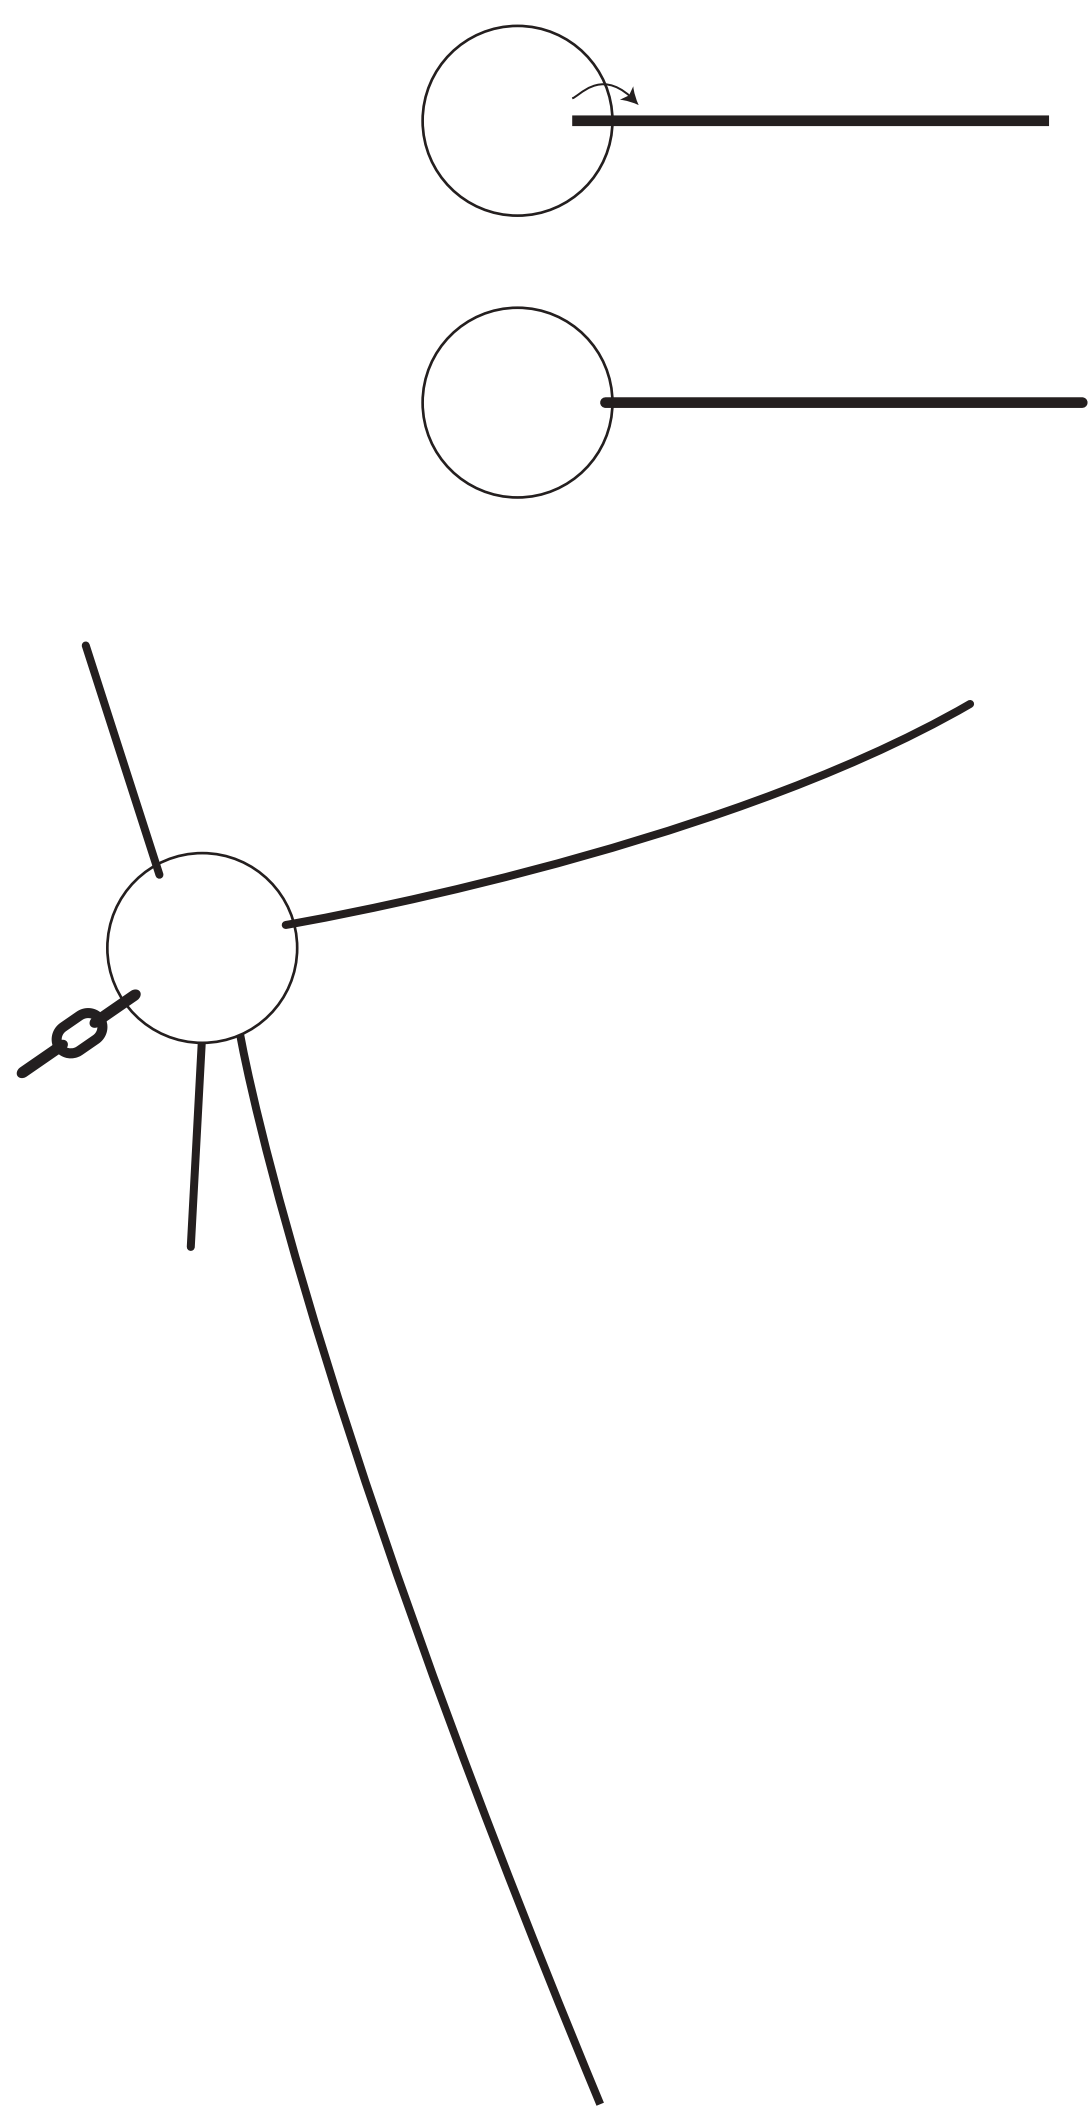

Fill the Hooby horse head with sintepon or holofiber. Shorten the wooden stick to the desired length, coat one end with glue and wrap it with a layer of padding polyester, fixing it with a thread

Step 9.  
Cut the rope/belt for the bridle in shorter lengths as shown on image

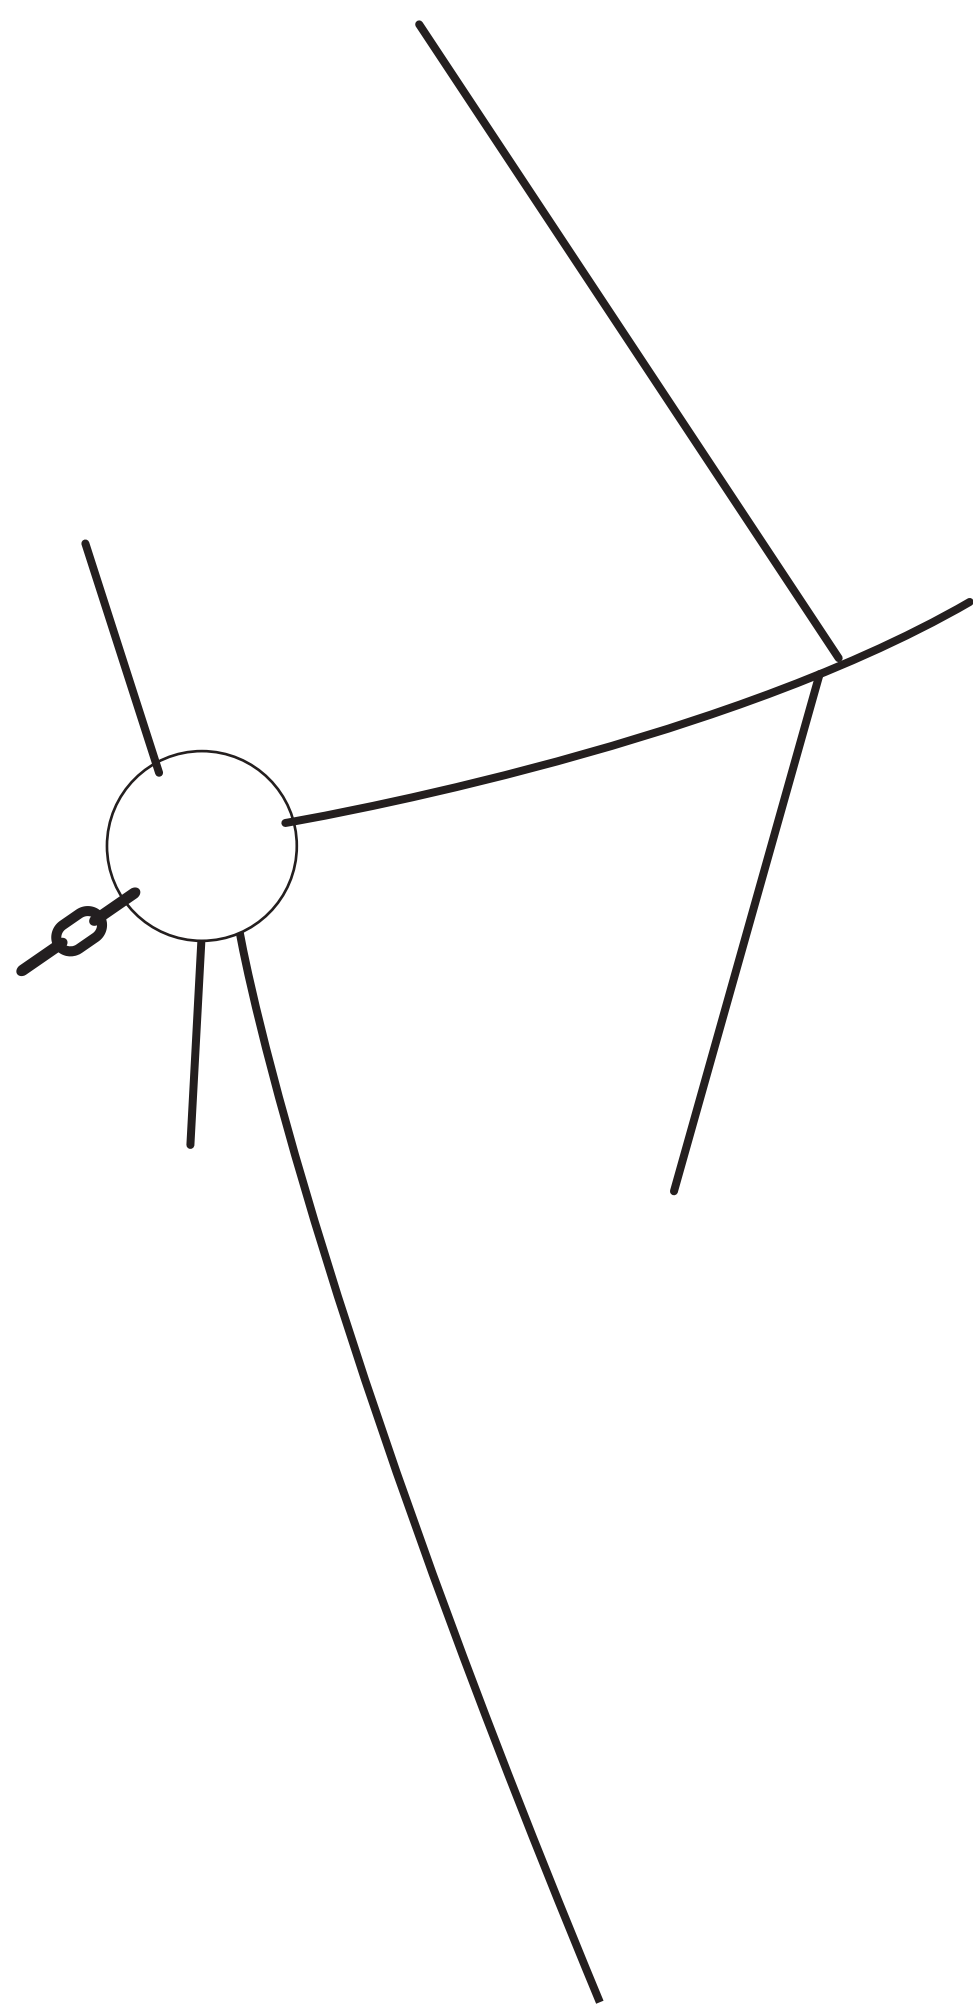

Step 10.  
Attach belt parts to the ring by rolling one end around the ring and fastening it with glue. Fix the metal chain around the ring

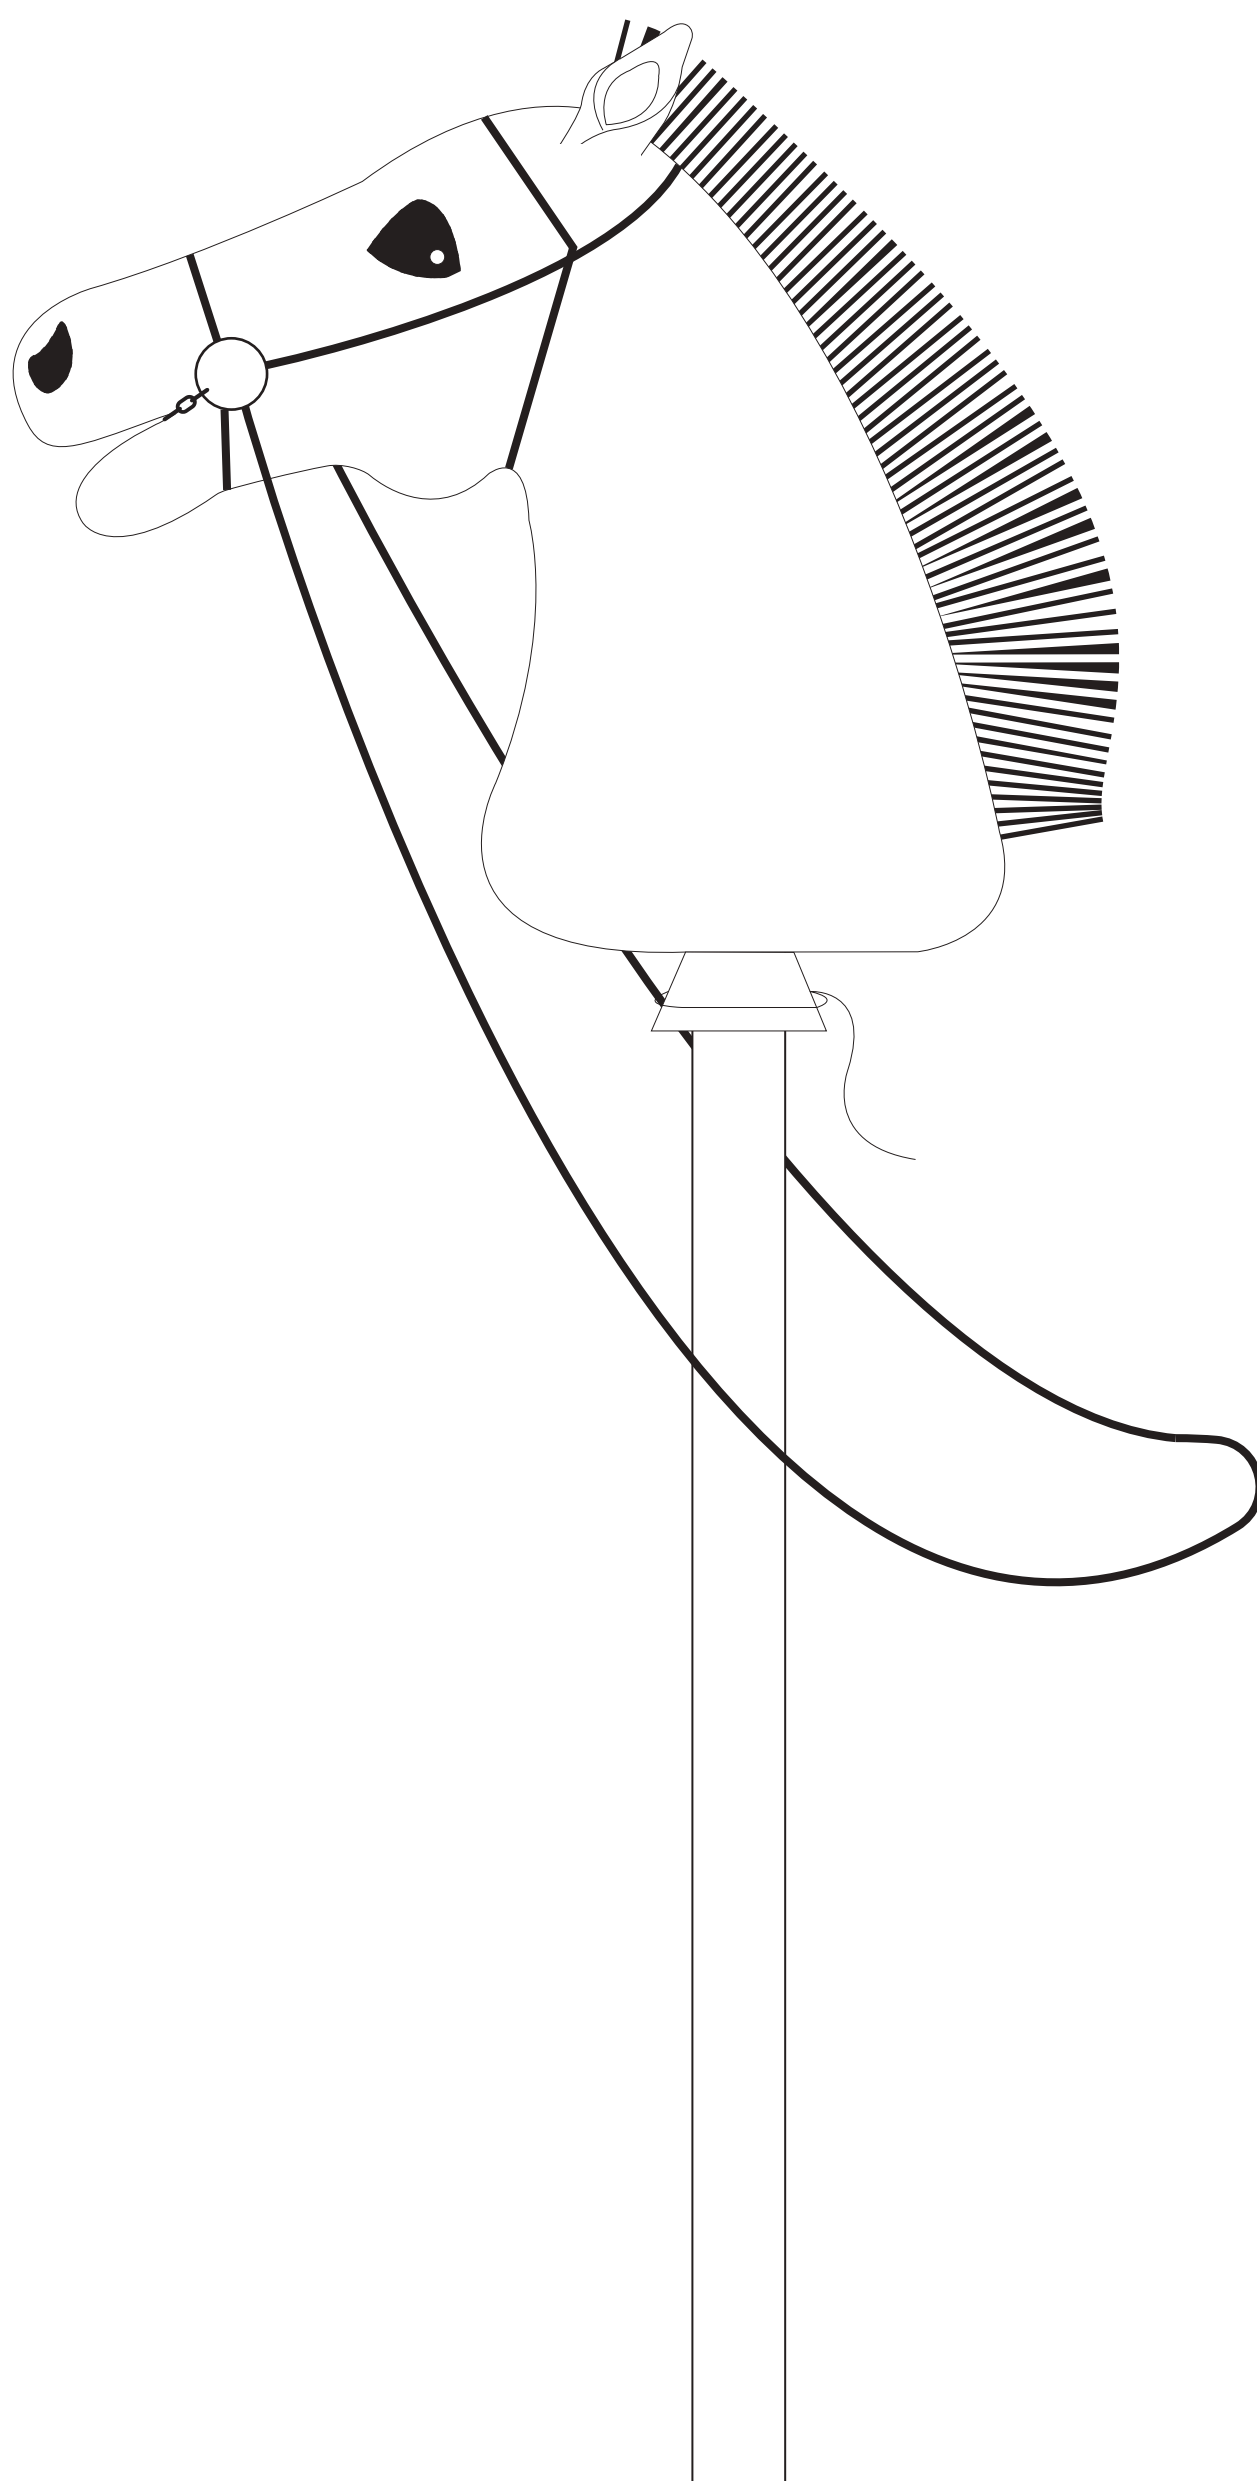

Step 11.

Attach lower and upper belt parts to the bridle in the same way as done in previous step

Step 12.

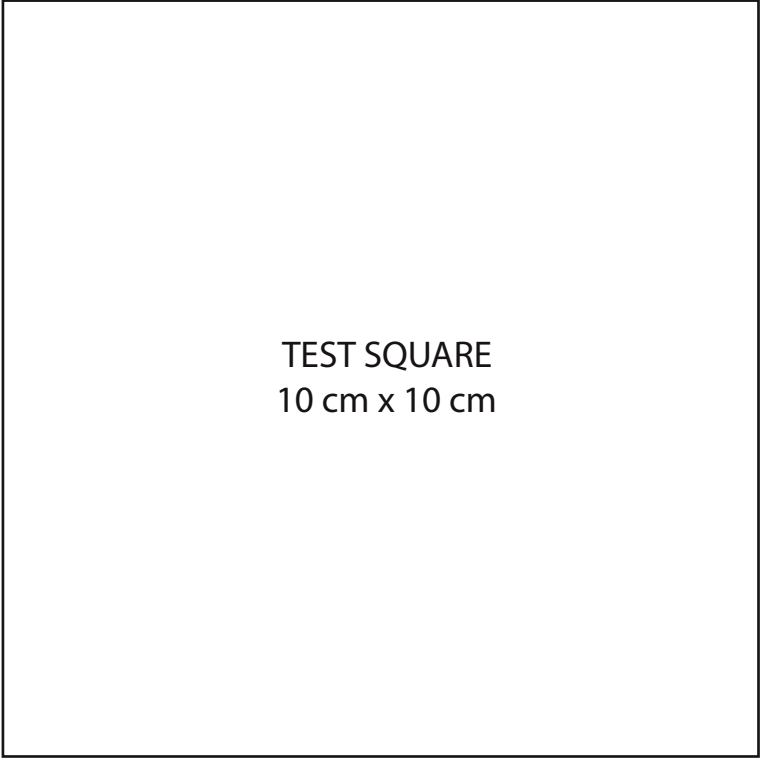

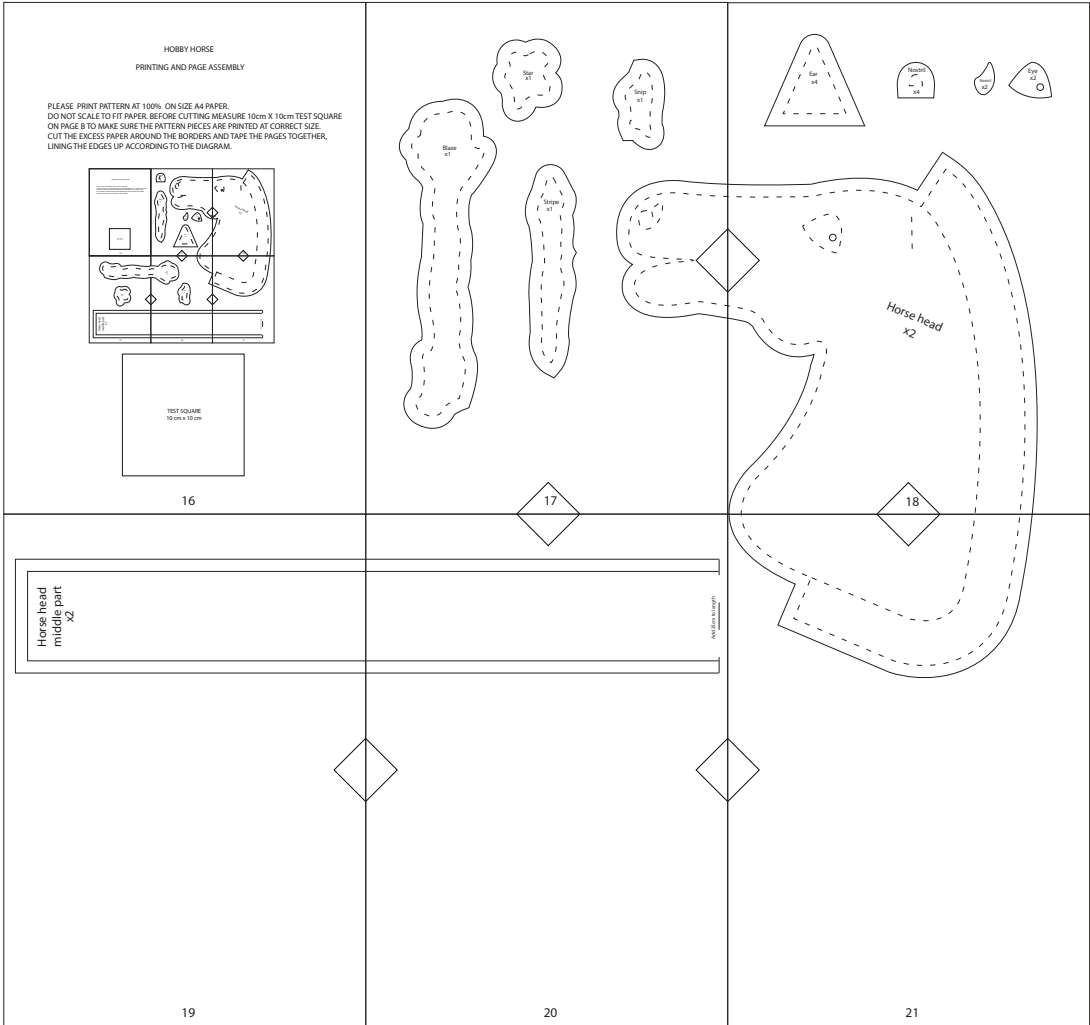

Put the bridle on the horse head

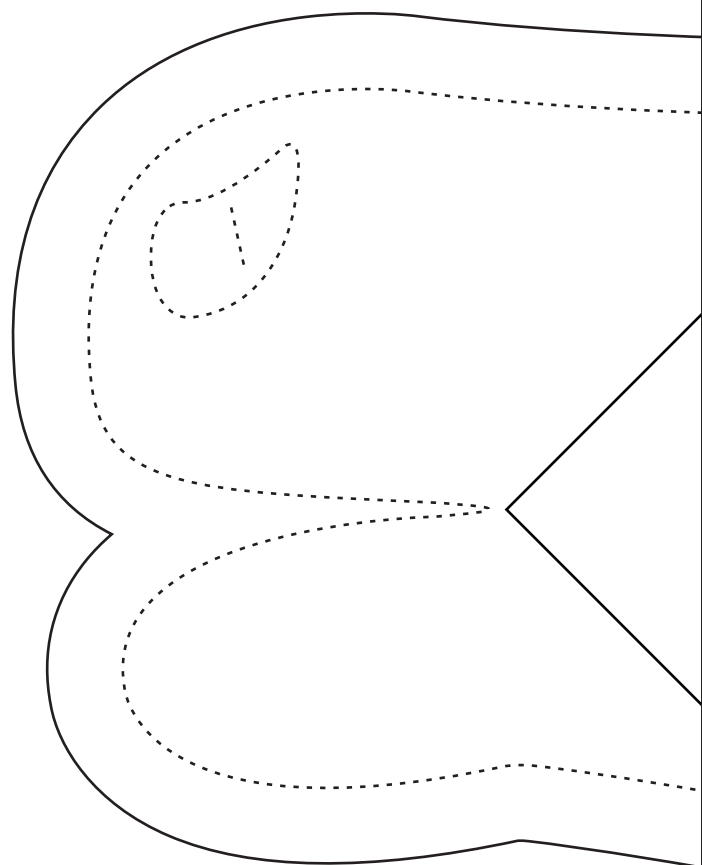

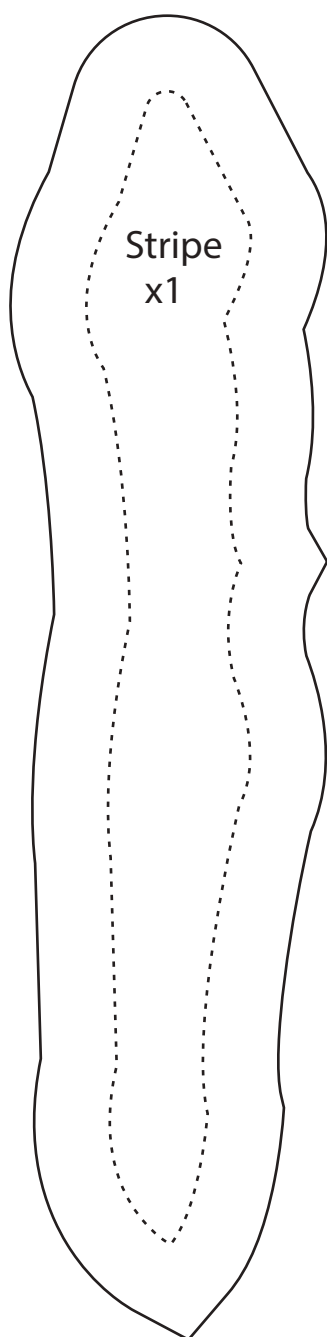

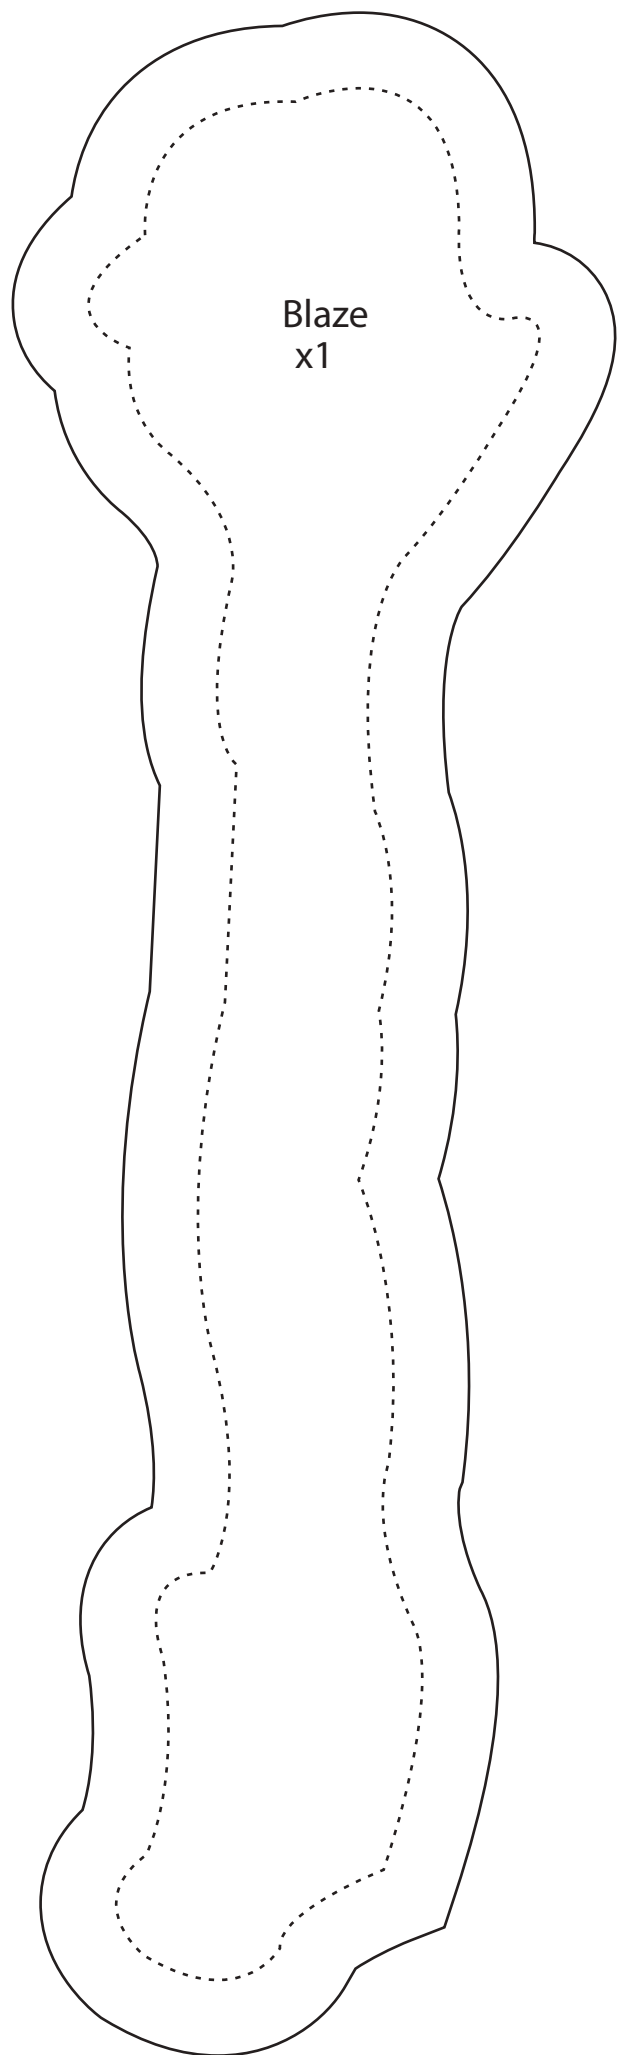

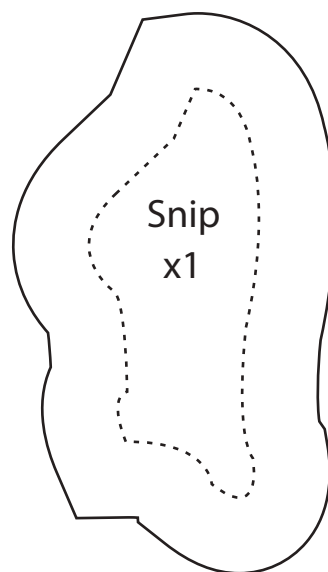

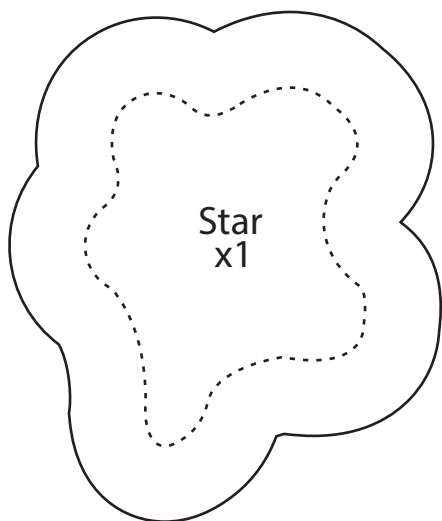

HOBBY HORSE

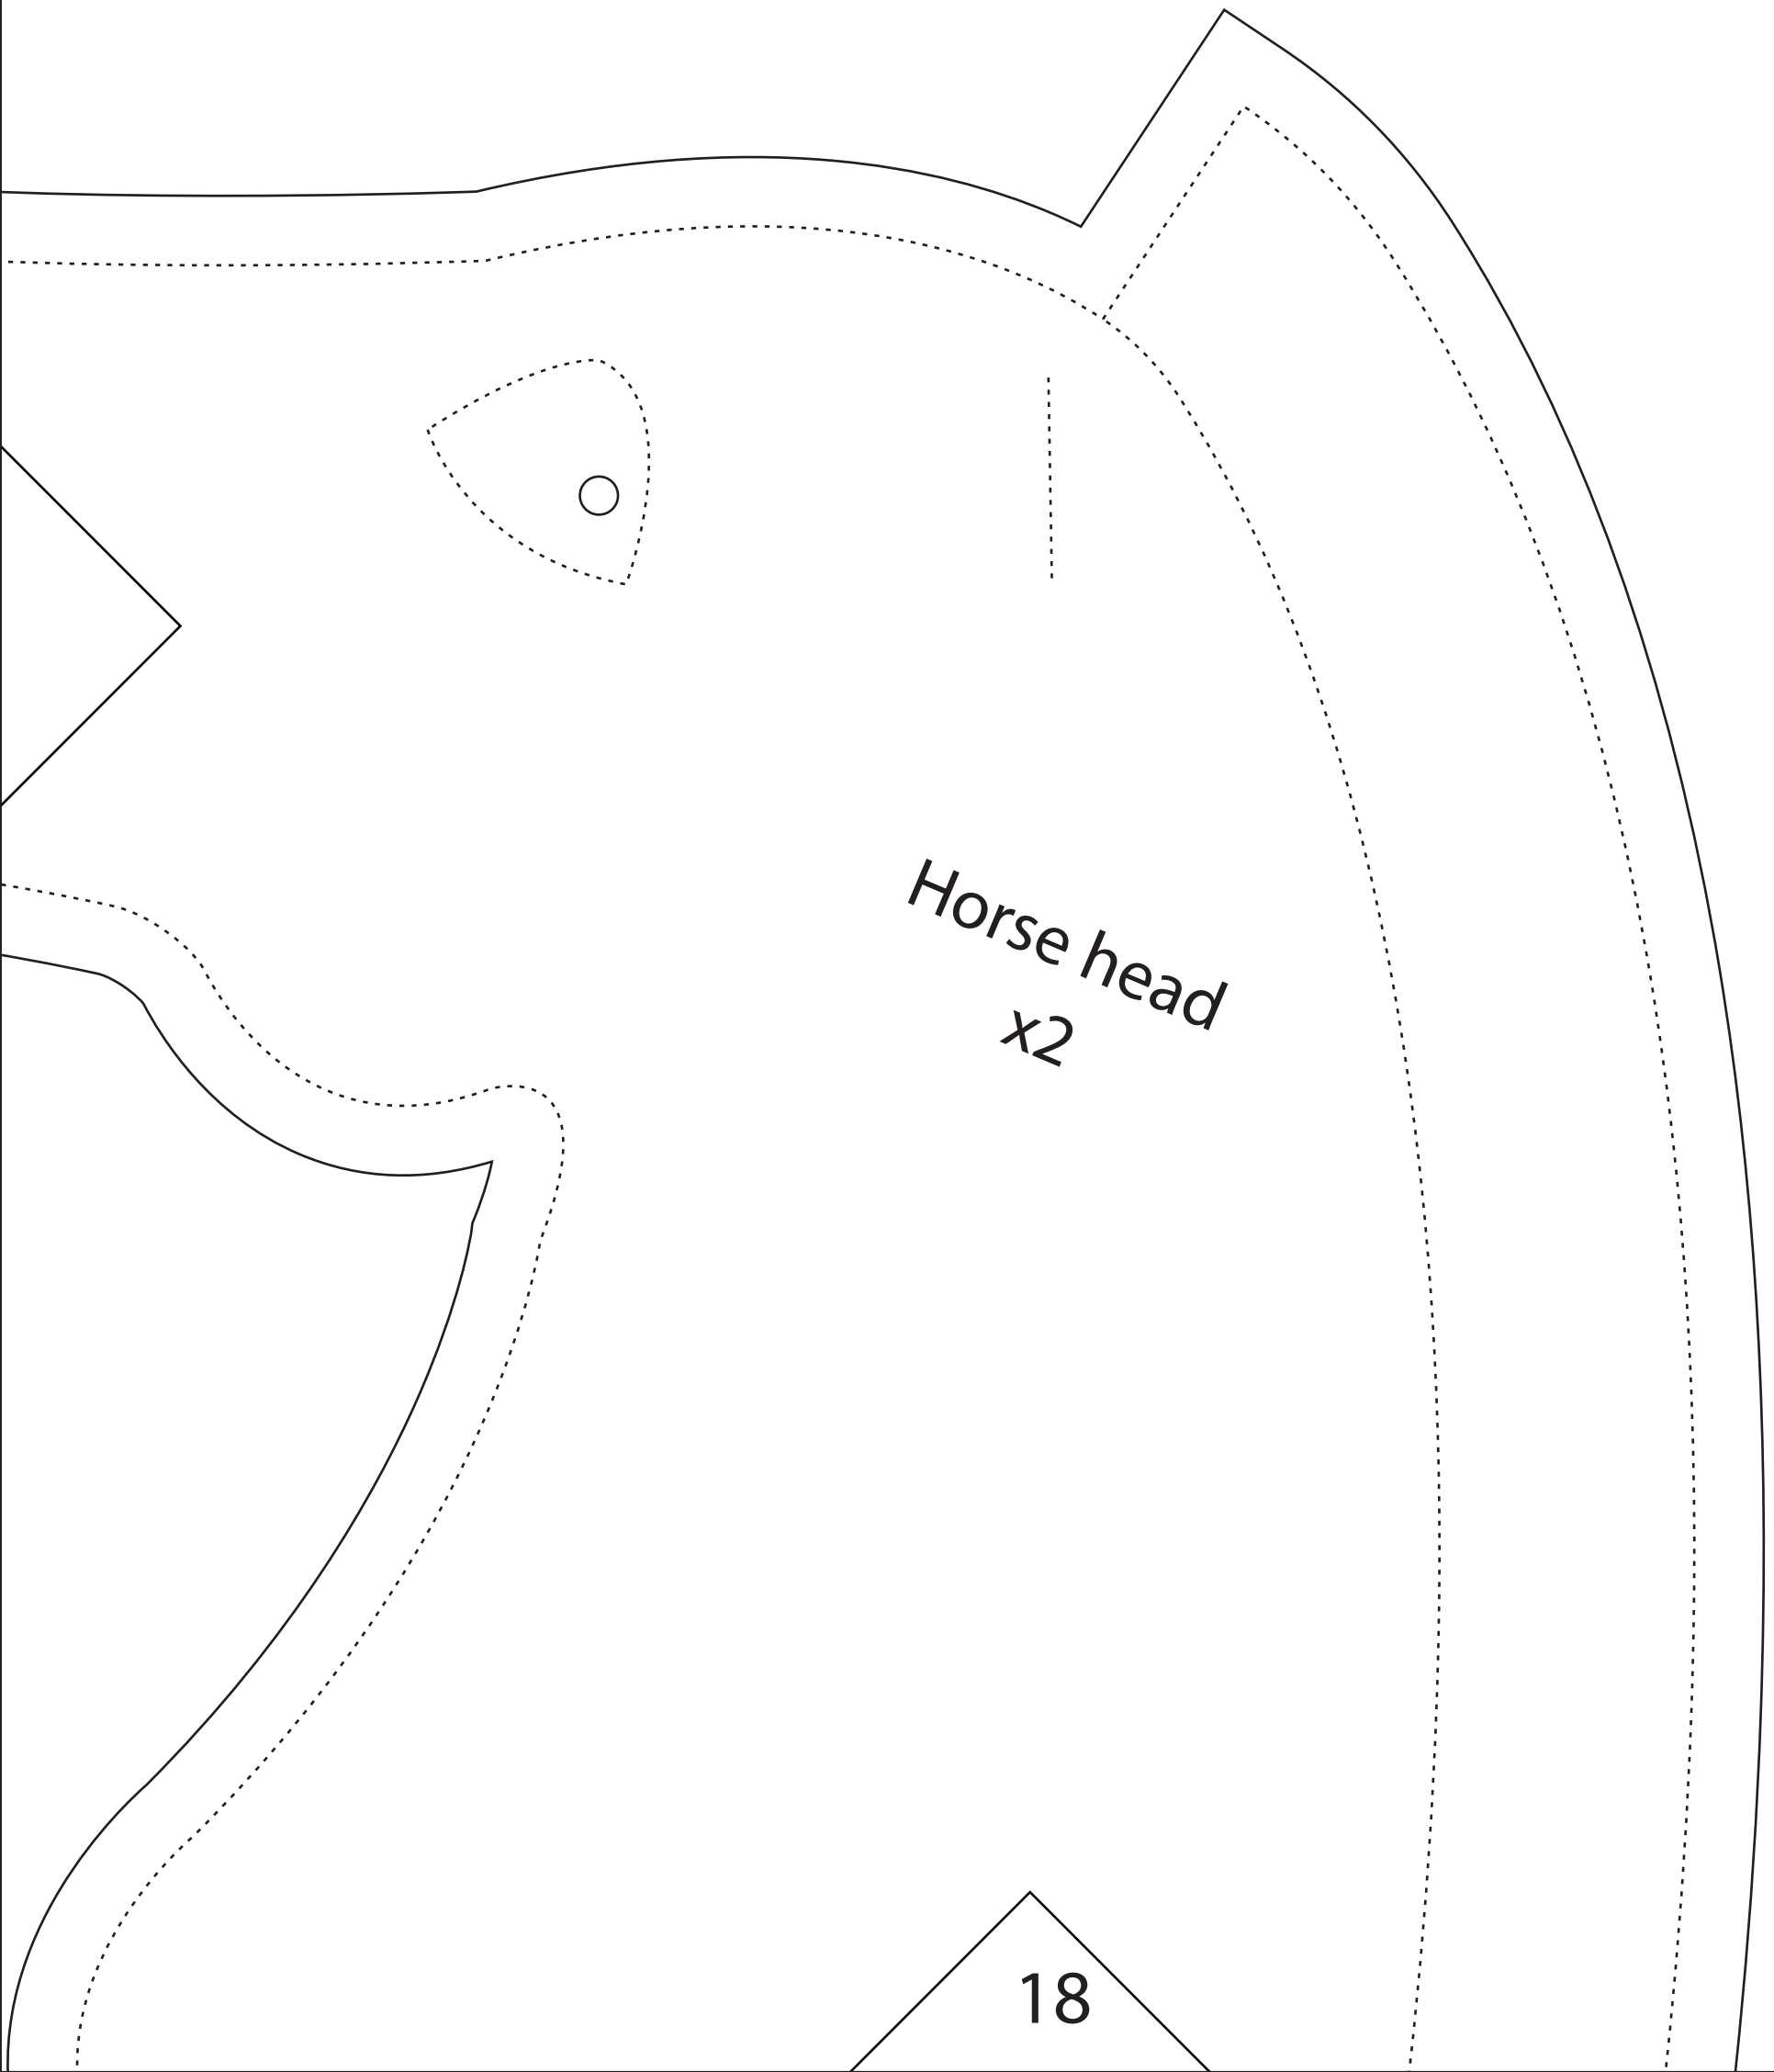

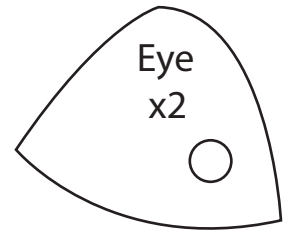

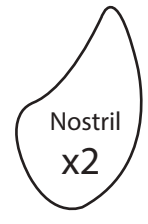

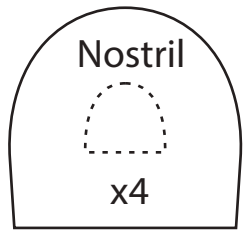

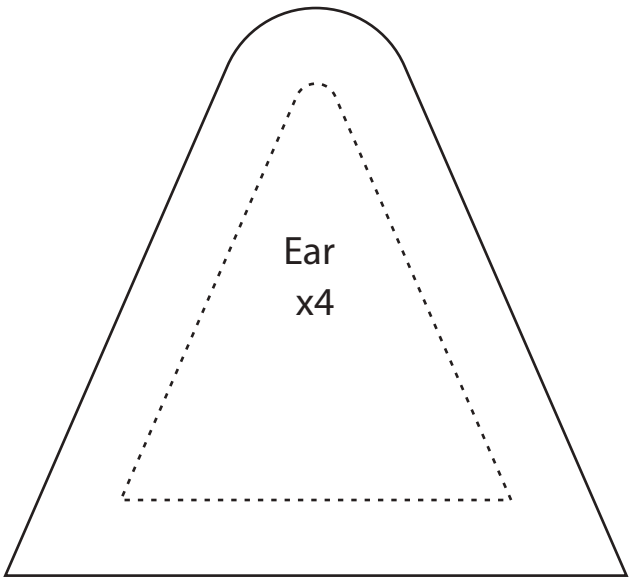

PRINTING AND PAGE ASSEMBLY

PLEASE PRINT PATTERN AT 100% ON SIZE A4 PAPER.  
DO NOT SCALE TO FIT PAPER. BEFORE CUTTING MEASURE 10cm X 10cm TEST SQUARE  
ON PAGE B TO MAKE SURE THE PATTERN PIECES ARE PRINTED AT CORRECT SIZE.  
CUT THE EXCESS PAPER AROUND THE BORDERS AND TAPE THE PAGES TOGETHER,  
LINING THE EDGES UP ACCORDING TO THE DIAGRAM.

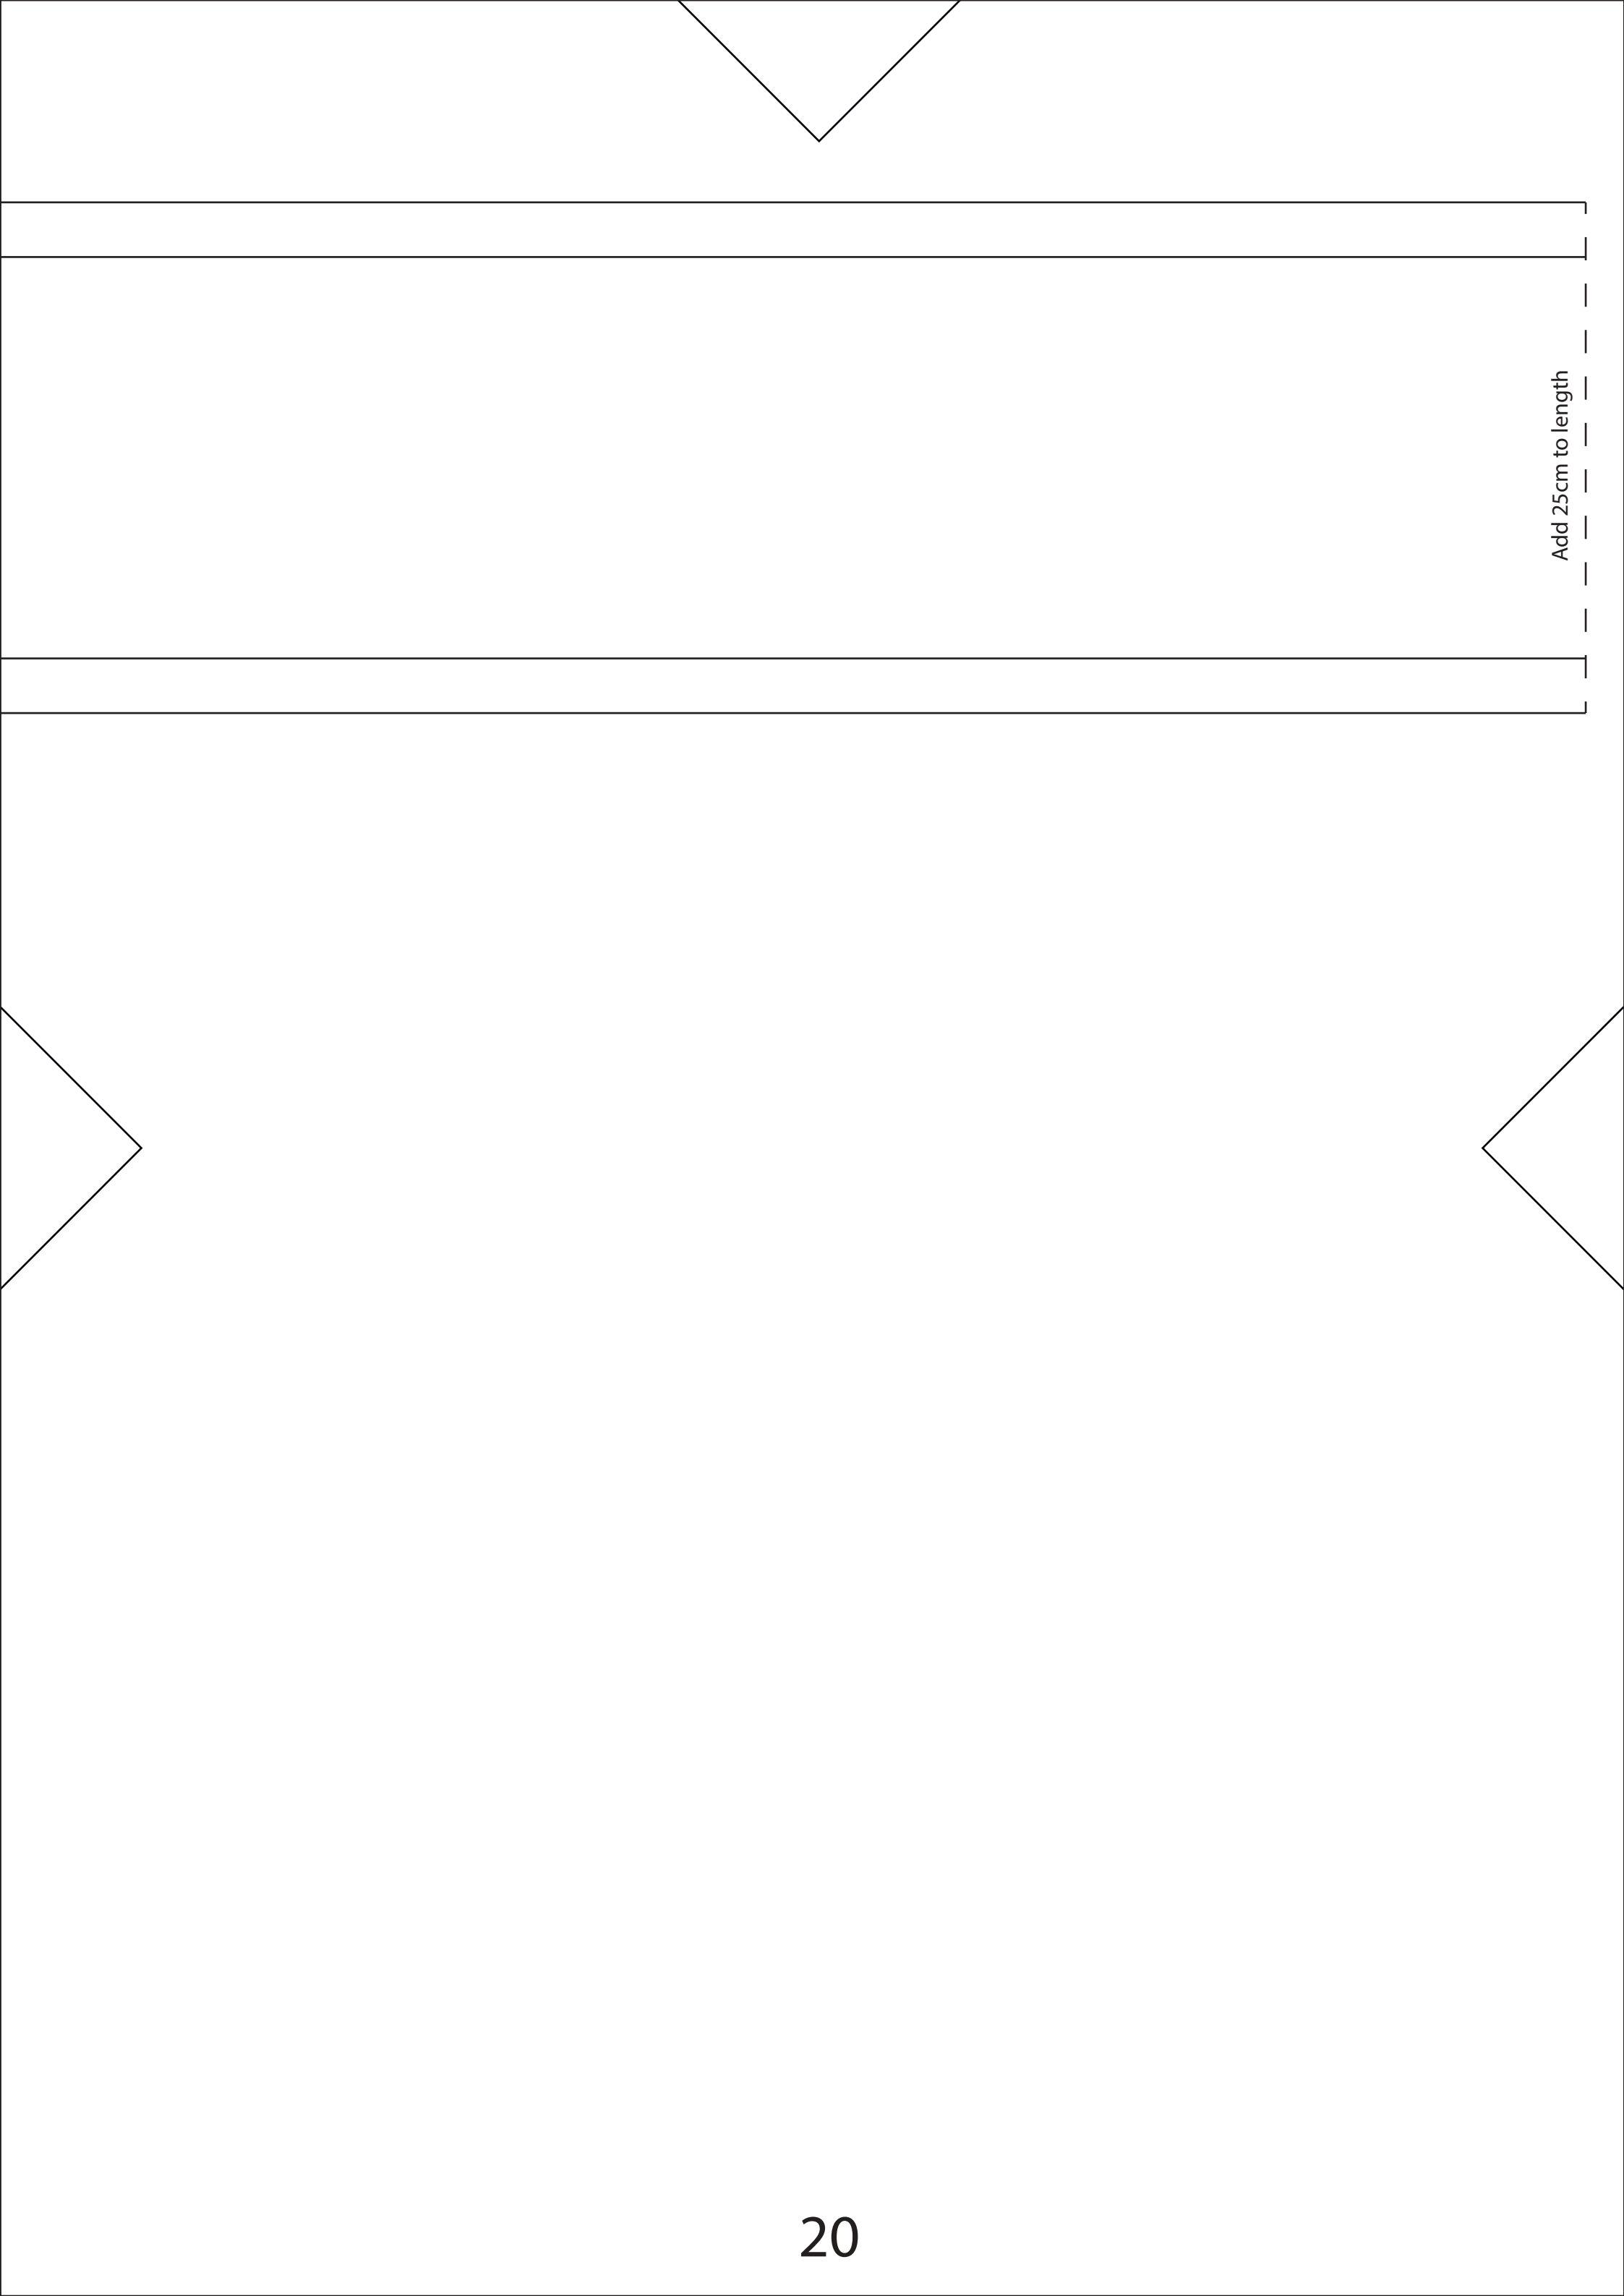

Horse head  
middle part  
x1

Add 25cm to length
